NXT5™

The NXT is made of a revolutionary poly-blended fiber uniquely processed for a feel that is second to none, and unlike any other rope on the market. The NXT5 is an incredibly fast and smooth five strand with the weight and feel of a blended four strand. It's easy to handle, with a smaller diameter and enhanced tip with a CoreTech™ core, giving headers more range than ever before.

The Heat™

Made from a blend of custom fibers and intricate twists, and a core made with CoreTech technology, the four strand Heat sets a standard in rope feel and performance. Designed for today's aggressive roping styles, The Heat provides a loop that is packed with body. The tip remains ahead of the swing for a more controlled and confident delivery. Lightweight and built for performance, The Heat maintains its original snappy feel, run after run.

XR4®

The XR4® is the original four strand team rope with a CoreTech™ core. Its true 3/8" diameter maintains a familiar feel in your hands. The increased weight and body enable better tip feel and help you deliver more accurately. The straight nylon core helps make this rope the most forgiving rope you've ever felt. It feeds easier and faster, allowing you to shave vital microseconds off your time.

Powerline4® Lite

The Powerline4® Lite combines four strand construction with the feel and handle of the original MoneyMaker®. It consists of four strands of twisted nylon and polyester filament wound around a CoreTech™ nylon core. This increases the rope's body and widens the loop, allowing you to throw with more accuracy and control. Plus, its smooth surface permits faster feeds.

NV4™

The NV4 blends two premium nylon types for greater stability, life and balance. The fibers are then fused with high tensile poly for enhanced action and speed. A CoreTech™ core provides loop stability and tip weight. The outer diameter is smaller, making it faster and easier to control. The NV4 has a snappy, responsive feel for greater confidence and visible catches.

Ranch Rope

Typical to Classic's four strand construction, this rope is smooth and fast. We selected nylon for its durability and long life. Soft enough for anyone to handle, but tough enough for the hardest jobs. The CoreTech™ body offers a balanced loop with a weighted tip, making it easy to use for work on the farm or ranch.

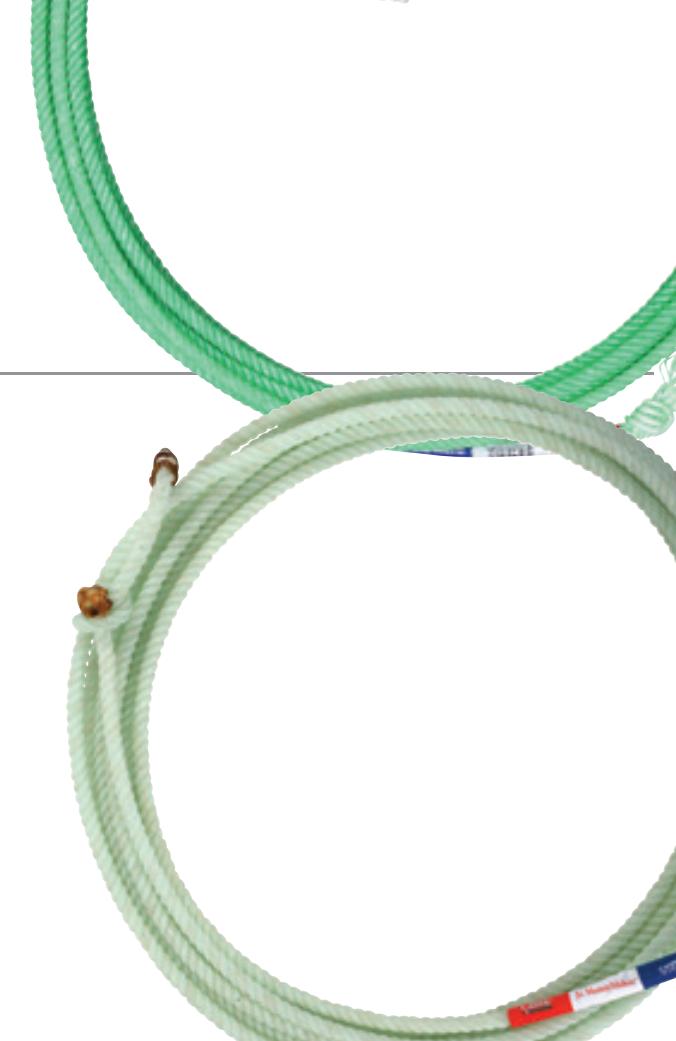

CRR4S335XS 3/8 TRUE 35' XS

Zoom™ Kid Rope

The Classic® Zoom is specially designed for young ropers or serious competitors in long-reaching dummy roping events. The Zoom is slightly smaller, with the same four strand CoreTech technology preferred by adult four strand users who need a lighter rope.

ZOOM5F30XS 5/16" FULL 30' XS

Jr MoneyMaker® Kid Rope

A junior version of the Classic MoneyMaker®. It may be smaller, but it has the same fast, smooth feel that is easy to handle.

Triton™

Triton is the triple threat in team roping. Created with an innovative blend of three unique fibers, the Triton is a four strand rope ideal for any roper's arsenal. Each of the three fibers bring its individual element to the rope. The poly fiber increases the tip size and feel. The first nylon fiber gives more body and twist for an open loop and zippy closure. The second nylon fiber adds forgiveness, consistency and overall balance to the blend. This recipe ensures the Triton's superior longevity and performance as Rattler's winning weapon.

Spitfire®

The Spitfire is the first professional breakaway rope of its kind. Made specifically to reach and rope the neck, the Spitfire is made with a customized process using technologically advanced fibers. This allows the loop to stay open, and upon delivery close sharp, fast and tight around the intended target. The enhanced tip has a weighted feel, helping to know where the loop is and guiding it to the intended target. The Spitfire shell is extremely smooth, allowing the rope to feed fast and easy. The body keeps the loop open to create a perfect storm for an aggressive, first-swing-shot out of the box necessary to win in today's sport of breakaway.

Striker™

The first four strand calf rope with a CoreTech™ core, the Striker is the most consistent calf rope available. It is constructed from special synthetic polyester that will not stretch, increasing life and consistency. The four strands give the Striker a smoother, faster feel than a polygrass, and the core stabilizes it, allowing it to rebound to its natural state.

Available in smaller sizes for junior ropers.

RIGHT	28'	8.5, 9.0, 9.5, 10.0, 10.25, 10.5, 10.75

Goat Strings

Recommended by renowned clinician and goat tying coach Lynn Smith. Three ply construction for optimal hold, in four variations of stiffness for increased speed and control at all levels and age groups.

Novice (S): The softest feeling string in the line for the ultimate beginner.

Junior (MS): Designed for young, beginning goat tyers. Easier for smaller hands to handle.

Original (M): Precise blend between firmness for snappy ties and suppleness for control. Ideal string for goat tyers who are looking to add speed to their ties.

Pro (H): Offers optimum speed without sacrificing security. A truly fast string that is accurate run after run, for goat tyers who are comfortable handling a stiff string.

Boys': The perfect blend for fast ties, with a manageable length for tying goats.

Working with the horse's own natural support structures, the Legacy2 cradles the fetlock and provides suspensory support without inhibiting movement. Horses are naturally designed to stop, turn, and accelerate – the Legacy System reinforces these motions and provides protection to the critical structures within the leg.

Extended height of the Tall Hind offers more tendon and suspensory support for horses with longer cannon bones. Available in Black and White only.

Sizes: Small, Medium, Large
Black, White also available in X-Large

Powered By
zoombang™
Protective gear

For extreme competition, Zone Saddle Pads provide extreme protection against pressure and impact. A specialized insert is filled with Zoombang™, an advanced polymer designed to reduce impact and pressure in a unique way. Zoombang has been used extensively to protect bull riders, NASCAR drivers, and professional football players with great success. This technology is available for the equine

athlete as well. Zoombang is a semisolid material at rest. This allows it to conform comfortably to the horse and disperse saddle pressure evenly. Using cutting edge innovations in science, Zoombang reacts to impact by instantly becoming rigid, dissipating pressure and protecting the horse's back. To learn more about this leading-edge innovation in protective equipment, visit zoombang.com.

THE PAD THAT REACTS

The Zone Series saddle pad is the only saddle pad that features a polymer protective material that allows it to properly conform to your horse's body for maximum comfort while ensuring its protection no matter how hard you ride.

Zone Suede / Felt

- Powered with a vented Zoombang insert that reduces injury and stress on equine athletes
- Breathable design remains securely in place, providing conformal layered protection
- Covered with uniquely rich and durable suede
- Durable orthopedic grade felt bottom absorbs moisture, remains soft and pliable, and provides excellent shock absorption
- 1" total pad thickness

BIOFIT

CORRECTION PAD

BioFit® Pads feature a strategically placed “buildup” that helps fill in the missing muscle mass often seen behind the shoulder. Decreased muscle behind the scapula can cause the saddle to run “downhill” and collapse on the spine at the withers. The BioFit® Pad is designed to effectively level the saddle, providing comfort and improving the horse’s performance.

BioFit® pads provide saddle fit solutions for narrow-shouldered or high-withered horses, or horses that have muscle atrophy due to ill-fitting saddles. Dense orthopedic grade felt absorbs shock and disperses pressure, while memory foam fills the void behind the shoulder with comfortable correction. A cutout over the withers offers greater clearance and spine relief. All BioFit® Pads are contoured for a close fit, offering excellent protection while solving saddle fit issues.

Cinch Fitting Tips

The cinch is the lifeline that holds your saddle in place, which in turn keeps you in a stable position during competition. Because there is so much riding on your cinch, we wanted to give you some helpful tips that will benefit both you and your horse.

- 1 Use a cinch that is designed with your horse's comfort in mind.
- 2 Choose a cinch by measuring the distance from one heart girth or "sweet spot" under the belly to the opposite one.
- 3 When the cinch is tight, the dees should lay flat and clean against the horse's heart girth or "sweet spot". If it rides above or below the sweet spot, it can cause soreness and discomfort.
- 4 To allow flexibility or "give" as your horse moves, use a cinch/latigo combination. Leather is a natural fiber that has "give". Leather latigos expand slightly and move with the horse as you ride.
- 5 Use a cinch with stainless steel hardware, which is long lasting and will not rust, corrode, or bind up. Classic Equine® cinches are made with stainless steel hardware to ensure you're getting the highest quality product possible.

REM Restoration Equine Mask

REST

The **Restoration Equine Mask** ensures your horse gets a good night's sleep even with the lights on.

Whether your horse is at a show, a vet clinic or a public stable, the lights are on. Have you ever tried to sleep with the lights on? Like us, our horses need the absence of light to produce melatonin, allowing for optimal rest and recovery.

Quality sleep is a big focus for today's athlete. It maximizes performance and is linked to increased levels of melatonin. Melatonin rises at night. Our equine athletes are asked to perform at competitions but often are left under lights at night, especially at an event.

The REM mask uses blue light blocking technology to promote the natural production of melatonin for a more restful night of sleep while being exposed to artificial light.

Developed and tested by veterinarians.

Patent pending.

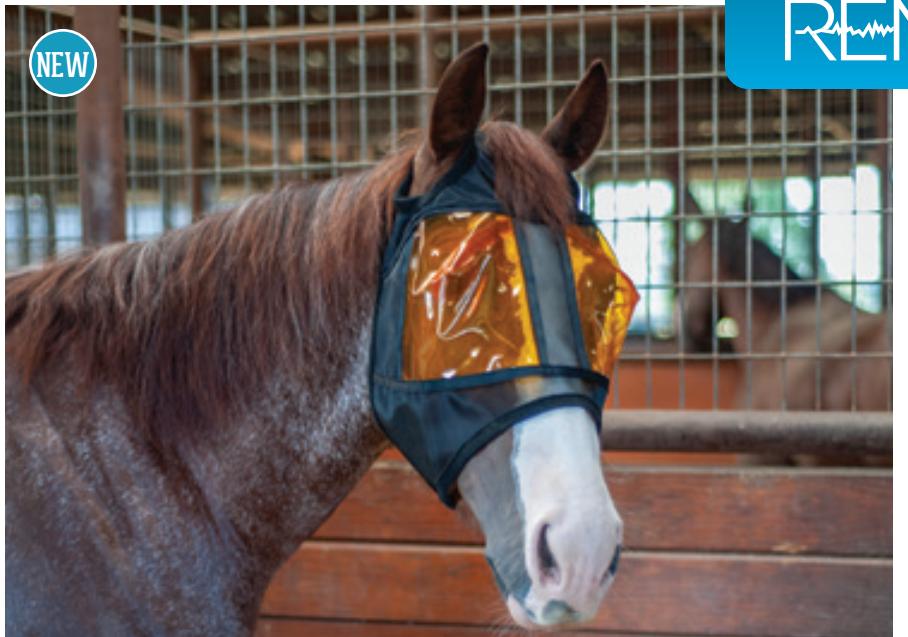

REM
Restoration Equine Mask

Standard

- Facilitates the melatonin rise needed for sleep and recovery, improving overall performance
- Use on horses who are stalled indoors where lights stay on
- Aids horses with eye injuries
- Eases travel anxiety
- Sizes: Small, Medium, Large, X-Large

REMR

Left Eye Patch

- Facilitates the melatonin rise needed for sleep and recovery, improving overall performance
- Use on horses who are stalled indoors where lights stay on
- Aids horses with eye injuries
- Sizes: Small, Medium, Large, X-Large

REMLP

Right Eye Patch

- Facilitates the melatonin rise needed for sleep and recovery, improving overall performance
- Use on horses who are stalled indoors where lights stay on
- Aids horses with eye injuries
- Sizes: Small, Medium, Large, X-Large

REMRP

MAGNTX

MAGNETIC EQUINE THERAPY

MagNTX™ therapeutic products are constructed with 1-1/2" bi-polar magnets. MagNTX magnets possess both north and south pole fields that run in horizontal planes. The north pole helps to expand the blood vessels and increase blood flow, while the south pole promotes the removal of toxins away from surrounding tissues. Using bi-polar magnets forces ions to rebound back and forth between the opposite magnetic fields, breaking up calcifications and carrying away toxins and other foreign debris, aiding the body's ability to heal naturally.

Science has proven beyond doubt that all living cells are electrical in nature. Each cell has a positive electrical charge at its nucleus and a negative charge on its outer membrane. This positive/negative polarization is what makes each cell function properly. When tissues are damaged, blood flow can be restricted, which limits the horse's oxygen and nutrient supply to the damaged area. Stimulating tissues and joints with bi-polar magnetic fields helps increase blood flow to a specific area and promotes a fast healing environment and natural pain killer. Magnetic therapy compliments deep tissue penetration therapies by

prolonging benefits in a non-invasive, cost and time efficient manner.

MagNTX products fit and stay in place with reinforced elastic hook-and-loop closures. Each MagNTX product uses a soft coated micromesh material that allows adequate airflow and is comfortable to the horse. Each bi-polar magnet is strategically placed for optimal effectiveness.

- We recommend using MagNTX products for a minimum of 30 minutes and no more than 12 hours at one time; ideal treatment periods will vary on a case by case basis
- Ensure the horse is adequately cooled down after a workout before applying magnets
- Do not use any oil-based or abrasive liniments under MagNTX products, as these substances can cause damage
- MagNTX magnets can be used in conjunction with preventative and treatment regimens
- Always consult your veterinarian when using magnet regimens

MagNTX

MagNTX products aid in injury prevention and speed recovery by generating blood flow to the affected area. Soft mesh ensures proper position.

Hock Wrap

- Recommended treatment for varying hock issues
- Helps relieve pain in arthritic hocks
- Aids in prevention of injury when used on healthy hocks
- Standard size

A. EMHW

Knee Wrap

- Aids in the breakup of calcifications
- Helps to draw out fluid and promote healing
- Standard size

B. EMKW

Mask

- Releases endorphins, which can aid in calming nervous horses
- Helps relieve some horses of anxiety related issues such as cribbing or weaving
- Standard size

C. EMMASK

Sheet

- Great as a pre-warmup and pre-competition tool
- Generates blood flow throughout the entire body, promoting relaxation
- Magnets are strategically aligned across the muscle meridian lines of the whole body
- Helps to promote overall healing
- Sizes: X-Small (68-70), Small (72-74), Medium (76-78), Large (80-82)

D. EMSHEET

Bell Boot

- Reduces pain of the navicular area or coffin bone
- Increases blood flow to the hoof and aids in a wide range of foot issues
- Standard size

E. EMBB

Tendon Wrap

- Used for a number of lower leg ailments
- Speeds healing in bowed tendons, splint injuries and ankle strains
- Standard size

F. EMTW

Relief Pad

- Use for human lumbar, shoulder, or neck therapy
- Size: 9" x 5-1/4"

G. EMRP

Standing Wrap Bandage

- Tough, stain resistant bandage material for securing quilted standing wraps
- 5-1/2" wide and 12' long for easy, complete coverage
- Easy to apply and remove, with large hook-and-loop fasteners for secure fit
- Minimal stretch helps to apply even pressure
- Set of 4

A. CESWB154

Quilted Standing Wrap

- Provides compression to help prevent inflammation
- Comfortable, durable quilting is padded to provide even pressure
- Bound edges keep out dirt and debris
- Black color looks cleaner and shows fewer stains than lighter wraps
- Set of 4 (2 front, 2 hind)

B. CEQSW154

Stud Breeding Boots

- Made of durable, textured neoprene exclusively for stallions
- Internal padding protects the inside of the knee from wear and tear while jumping the dummy
- Top two straps made longer for extended fit around the joint with three shorter straps extending to the bottom
- Standard size

C. BREEDINGBOOTS

Ice Boots

- Makes icing a horse's legs for injury or recovery a fast, easy process
- Removable encapsulated gel ice pack hook-and-loops in and out of the boot for easy on/off application
- Neoprene shell acts as an insulator to keep the ice pack cold
- Set of 2
- Sizes: Small, Medium, Large, X-Large

D. CEIB

REPLACEMENT INSERT
CEIBI

Shipping Boots

- Protect horses' legs during travel
- Hard outer shell over the hoof with padded interior
- Front boots extend from above the knee to the hoof and secure with hook-and-loop straps, allowing for mobility around the knee and external protection
- Hind boots extend from above the hock to the hoof and secure with hook-and-loop straps, with two large crossover straps at the top
- Set of 4
- Sizes: Medium, Large

E. CESB204

Quick Wraps

- Apply muds, sweats or liniments to your horse's legs quicker and easier
- Neoprene shell is secured with hook-and-loop straps
- Removable terry towel lining is soft and easy to clean
- Compatible with your own muds/liniments
- Set of 2
- Sizes: Small, Medium, Large, X-Large

F. CEQW

REPLACEMENT INSERT
CEQWI

Ceramic Wraps

- Ceramic lining reflects the horse's own body heat to promote thermal infrared therapy
- Aids in blood circulation and reduces inflammation
- Neoprene shell is secured with hook-and-loop straps
- Use in the trailer or the stall
- Set of 2
- Sizes: Small, Medium, Large, X-Large

G. CECW

REPLACEMENT INSERT
CECWI

Stress Guard Wraps

- Easy to use and clean
- Provides protection for horses in a stall or during transport
- Comfortable poly fleece lining with neoprene center for even support and pressure
- Outer shell is durable, with bound edges to keep debris out
- Aggressive round-cut double lock closure is secure
- Set of 2
- Sizes: 12", 14"

Classic Equine®

By **Ritchie®**

Improving the quality of water is a simple way to help promote the health and performance of your horses. Classic Equine® has earned a spot as the leader in providing the finest protection and performance products for your horses. Ritchie® has been providing innovative watering solutions for nearly a century. It makes sense that we teamed up to create a line of

automatic water systems specifically designed for horses. Classic Equine® by Ritchie® founts provide clean, fresh, temperate water for any situation. Whether you need water in a stall for one horse, two in the back yard, or 40 head in the pasture, Classic Equine® provides trouble-free, worry-free access to the best water available.

StallFount

Individual

- Automatic water fountain for stalls
- Supplies fresh, clean, temperate water
- Easy to drain and clean
- Corner mounted to save space
- Stainless steel cover and hardware
- Quick refill function - no waiting for water
- 10 year warranty
- 120V thermostat-activated heater on heated version
- Electrical components on heated version UL tested and approved

Heated

A. FOUNTSTALLHEAT

Unheated

FOUNTSTALLNOHEAT

Shroud (StallFount)

- Durable, fully insulated casing designed to protect the water line below your StallFount from freezing and animal abuse
- Eight anchor bolts for secure installation
- Removable panel for easy access
- Available in 20" height for smaller animals or 30" for horses over 15 hands
- Full 10 year warranty

B. FOUNTSHROUD20 20"
FOUNTSHROUD30 30"

STALLFOUNT

UltraFount Two Drink

Stainless Steel - Insulated - Automatic

- Waters up to 40 head of livestock
- Premier, energy efficient heating system
- Provides worry free fresh water year round, regardless of climate
- Heavy duty construction and stainless steel drinking area
- Virtually maintenance free float with quick refill function
- Large access panel for installation
- Saves water by cutting waste
- 10 year warranty

C. FOUNTULTRA

ULTRAFOUNT

UltraFount Single Drink

Stainless Steel - Insulated - Automatic

- Same premium materials as the UltraFount, for up to 20 head of livestock

D. FOUNTULTRASINGLE

ULTRAFOUNT

AutoFount Two Drink

Insulated - Automatic

- Waters up to 40 head of livestock
- Heavy duty construction with hinge cover for easy access
- Fully insulated chamber
- Worry free float system with quick refill function
- Saves water by cutting waste
- Easy cleaning
- Heating accessories available
- 10 year warranty

A. FOUNTAUTO

AutoFount Single Drink

Insulated - Automatic

- Same premium materials as the AutoFount, for up to 20 head of livestock

B. FOUNTAUTOSINGLE

EZ Fount

Automatic

- Replaces the “tank and float” for up to 20 head
- Heavy duty construction
- Multiple mounting options for pen or pasture
- For portable or permanent use
- Easy installation and cleaning
- Connects to a basic 200 psi garden or washing machine hose
- Supplies fresh, clean, temperate water
- 10 year warranty

C. FOUNTEZ

EZFOUNT

Immersion Heater

- For use in all poly units
- Teflon® coated for added durability
- Built-in thermostat for worry free operation and protection only when you need it
- One year warranty

D. FOUNTIHEATER250

Self Regulating Heat Cable

- Protects valve and supply lines from freezing, helping keep your unit trouble free
- For use with all poly units
- Built-in thermostat reduces heat as temperature increases, saving electricity costs

E. FOUNTHTCABLE

Thermal Tubes

- Protect your riser through the frost zone
- 2" of superior insulation with 8" inside diameter, 12" outside diameter, and an R-factor of 14
- Recommended water line installation is 1' below the frost line

Rope Bags

Designed with ropers in mind, our rope bags have room for everything you need in the practice pen or for competition. With a variety of styles and sizes and materials made to last, we have the right rope bag for everyone.

ROPE BAG FEATURES

ROPE COMPARTMENTS

Sized to fit and organize Classic and Rattler ropes perfectly, keeping them in place and protecting them from outside elements.

POCKETS

Ample storage for things you need to keep close and convenient. Enclosed and mesh pockets are great for holding keys, cell phones, gloves, rubber, etc.

STRAPS

Adjustable straps designed to be carried comfortably by shoulder or on your saddle. The Professional and Super Deluxe bags have the popular two strap option to be carried as a backpack for optimal convenience.

Professional Rope Bag

The ultimate portable rope storage system, holding up to ten ropes. Large, full length dividers keep ropes separated in larger coils. Heavy duty zipper closure, several storage compartments, and padded, adjustable shoulder straps for security and convenience.

CCPRO14BK

Adjustable Shoulder Straps

Super Deluxe Rope Bag

For those who need it all! Enclosed padded rope compartment has dividers to keep ropes separated and neat. Front pocket holds accessories and cell phone. Carry as a backpack, sling over your shoulder, or buckle to the fence. Holds up to nine ropes.

CC2004

OLIVE / GREY

NAVY CHEVRON / TAN

BLACK / GREY CHECK

Backpack Straps

Deluxe Rope Bag

Two main padded compartments keep ropes tidy, one with a mesh bottom to allow dirt to escape. Mesh pocket behind holds dirty ropes, boots, etc. More pockets for ample storage, and straps that buckle for easy attachment to the fence. Holds up to nine ropes.

CC2002

Basic Rope Bag

Nylon material with padded rope compartments and an outside pocket with a divider make the Basic Rope Bag a roper's favorite. Also features a mesh pocket with an elastic top on each side to hold gloves, powder, and other necessities. Holds up to four ropes.

CC102

Clear Vision™ Cool Wrap Horn Wraps

The most breathable horn wrap on the market increases air flow to help prevent moisture buildup, reducing sore heads and head tricks. The design ensures a Clear Vision and straighter running cattle no matter the size of the horns. Extra heavy webbing is reinforced for durability, with a tough mesh outer layer. Protective ear flaps eliminate sore ears, while the cutback design increases the field of vision. Long straps are double stitched to keep from ripping out, with extra adjustments and tapered horn holes to fit a wider variety of cattle. Patent #7,386,972.

HORNWRAP21

Touchscreen Friendly

HP Roping Glove

Slide your hand into the superior alternative to traditional cotton gloves. The HP Roping Glove's High Performance molecular structure is fabricated to be abrasion and cut resistant. The HP Roping Glove is breathable and evaporates moisture quickly, giving you more feel and sensitivity to be fast and accurate. The long lasting seamless construction fits close and the index, middle and thumb of adult sizes are touchscreen friendly. Package of 6.

Easy Now® Quick Release

Made to help prevent injuries to horses and cattle while maintaining safety to the rider when used properly. The QR2, made with Easy Now shock absorbing technology, is installed easily on the saddle horn using adjustable tension straps to perfectly position it for ease of use. It stretches after the steer is caught and stopped, absorbing shock and tension and protecting the animals. After tension is released, a lever on top is pulled and the rope is released. The QR2 can also be released under some tension. An optional guard is provided to help reduce the possibility of recoil. There is virtually zero rope change time required when a new rope is desired. Pull tested to 1,500 lbs. Replace rubber piece after 100 runs.

Cinch and Latigo Protector

- Helps eliminate girth itch by protecting the latigo from passing fungus or bacteria from one horse to another
- Extremely breathable, with jersey against the horse's skin for comfort, a lightweight foam center and mesh exterior
- Attaches with two hook-and-loop straps to the saddle's D-ring then secures over tightened latigo
- Easy to wash
- Set of 2

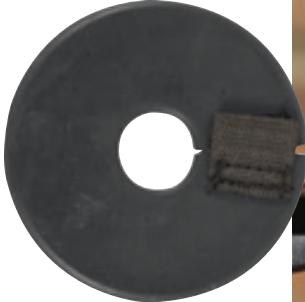

CLPBK

Bit Guard

- Prevents soreness and provides comfort
- Constructed of a water resistant, nontoxic rubber with a simple hook-and-loop closure that makes installation a snap
- Long lasting protection against pinching ensures improved performance

CG-BLA

Saddle Shims

- Tapered wedge closed cell foam
- Use to fill the small gap or space behind the horse's shoulder and under the front of the saddle
- Recommended to support, adjust for a better fit, or promote a more level fit
- Place shims just under the front of the saddle and on top of the saddle pad as needed
- Includes: 2 Large (5" x 24-1/4"), 1 Small (3-3/4" x 24-1/4")

CESSHIMS

Bucket Straps

- Made of nylon webbing with an aluminum snap and holds up to 150 lbs
- Makes hanging buckets and other items a snap
- Size: 1" x 26"
- Package of 12

BUCKSTP12

Ear Plugs

- Soft, molded foam is textured to help the ear plug stay in place
- Easily moldable to fit in the ear
- Two pairs
- Sizes: Medium (4 cm), Large (4-1/2 cm)

CEEP

ID Tag

- Attaches to halters, blankets, etc. for labeling or identification with leather, string, or zip tie
- Pliable and soft
- Fine point permanent marker recommended for labeling
- Package of 6

IDTAG6P

Sherry Cervi
SIGNATURE

COLLECTION

Sherry Cervi's Signature Collection bits have an excellent feel for quick pickup and release. Mouthpieces are stainless steel and available in many options and degrees of control.

"I see a lot of barrel racers who reach for the most severe bit in the trailer at the slightest resistance rather than following a natural progression. You should always start mild and work your way up only if needed. I recommend starting a colt or charging horse with mild bits to teach them to yield to pressure while building confidence and establishing correct body position. That's why I start with my smooth D-ring snaffle before anything else, and then move up to the Diamond Draw series."

-Sherry Cervi

Diamond Short Shank II

Identical to the original Diamond Short Shank, but with a limited gag for horses that do not need the extra collection. 6" shank.

Diamond Draw

The Diamond Draw provides rate, flex, and lift. The weighted rings allow quicker release of pressure and amplify the feel to horse and rider. Copper wrapped o-ring mouthpiece encourages salivation and acceptance. The harness headstall has durable cord cheeks for smooth pickup and release with additional poll pressure.

HBDBB323 BROWNSTEEL

- V. HBDBB323 COPPER O RING

Goostree Barrel Bits

Carol Goostree is a true barrel racing legend and has been a trusted name in bits for many years. She is a former World Champion and has provided the western industry with the highest quality bits, original in design and ridden by some of the best barrel racers in the world. We are proud to bring you some of the most successful designs in the line.

CG Bit

The "CG" bit is one of the first bits Carol designed. She developed this bit especially for her champion mount "Dobre" in the late seventies. The chain snaffle mouthpiece and short gag action make this bit soft and forgiving in a horse's mouth. Horses tend to feel comfortable in this bit and show a lot of response without overreacting. It helps add control in the turns, and support and correct an overly bendy horse. The CG's 5-1/2" weighted shanks add more feel and help encourage a proper headset.

GTCGBIT

A. GTCGBIT31

CHAIN SNAFFLE

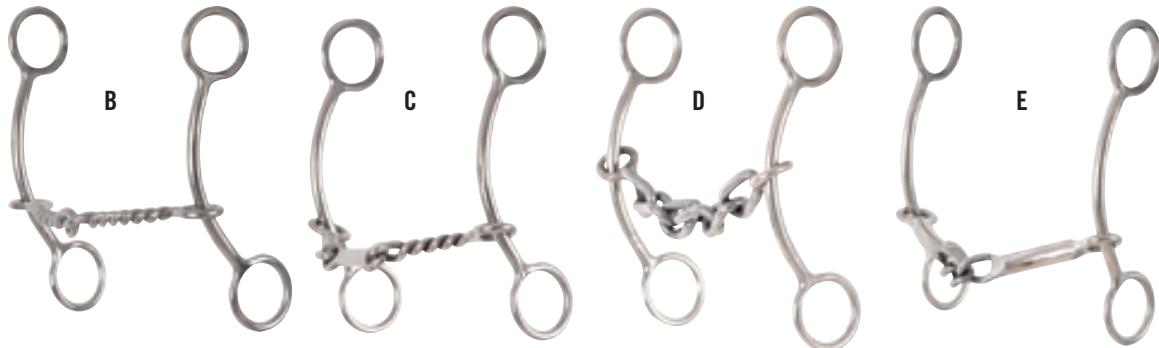

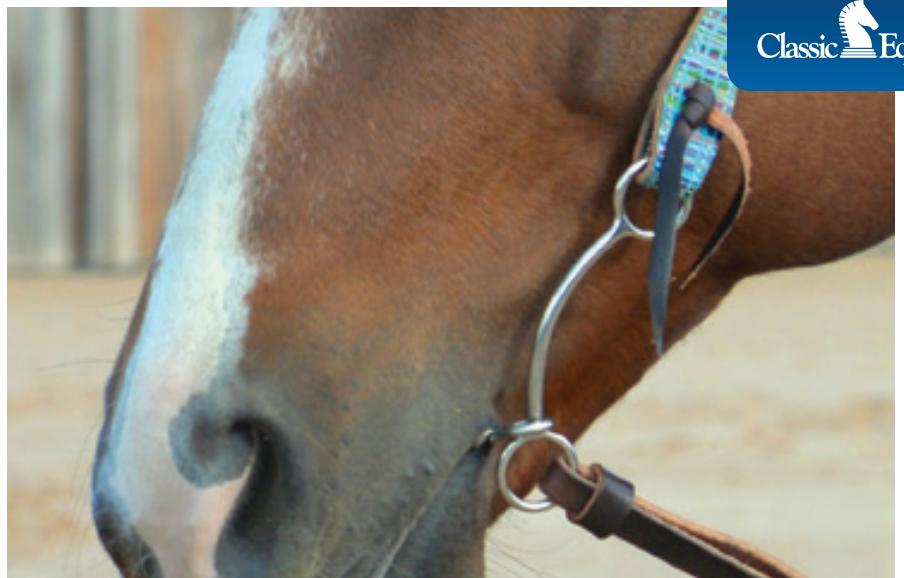

Simplicity Bit

Simplicity bits are designed for light-mouthed horses that need more flex with added control. These bits enforce natural flexion and rate going into a turn and are great transitioning tools for young horses that are ready to add more speed as they advance. Simplicity bits are trusted by some of the most successful barrel racers in the world. 5" shank.

GTSBIT

| F. GTSIIBIT12 | TWISTED WIRE SNAFFLE |
| G. GTSIIBIT13 | DR BRISTOL |
| H. GTSIIBIT30 | CHAIN |
| I. GTSIIBIT31 | CHAIN SNAFFLE |

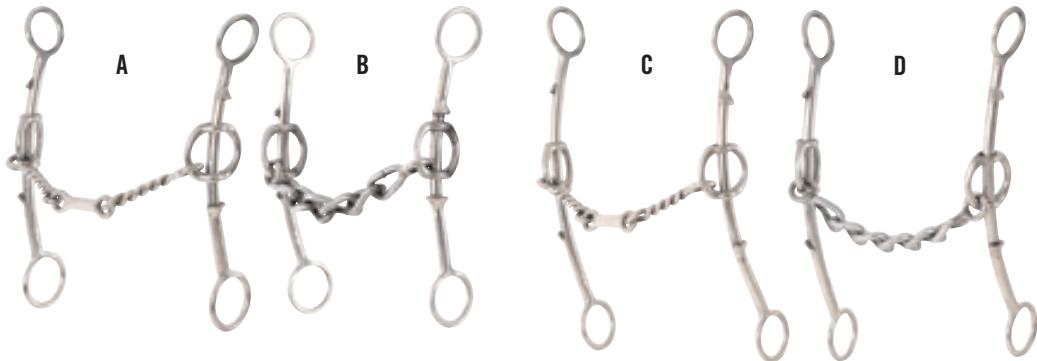

Double Gag Bit

The Double Gag is for a light-mouthed horse that needs more direction and lift in competition runs as speed increases. The slight gag action gives the horse a chance to prepare for full contact before the rider fully engages the bit. It is comfortable, safe and provides a tremendous amount of feel for the rider without being too harsh. 8" shank.

GTDG

- | | |
|-------------|------------------------|
| A. GTDGSS13 | SHORT SHANK DR BRISTOL |
| B. GTDGSS30 | SHORT SHANK CHAIN |
| C. GTDGLS13 | LONG SHANK DR BRISTOL |
| D. GTDGLS30 | LONG SHANK CHAIN |

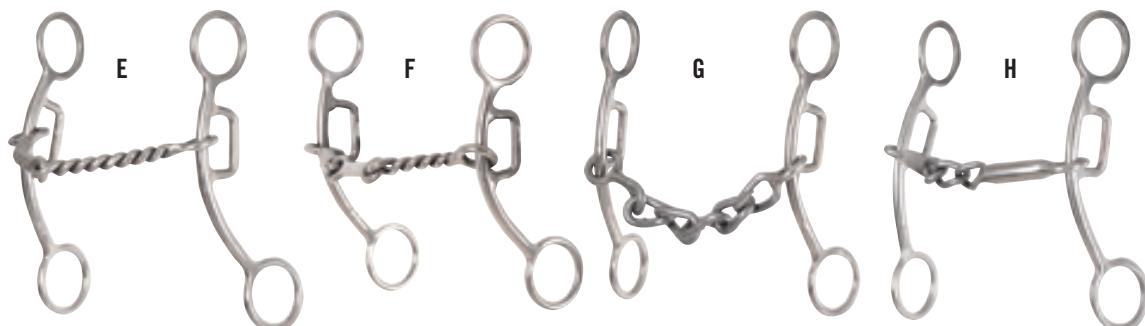

Delight Bit

The Delight has been around for decades and continues to be a best seller. It is a light bit, but offers quicker contact and a little more control when needed. The Delight is one of the original bits in Carol's line, and is perfect for tuning an older finished horse or for seasoned colts going around the barrels. 4-3/4" shank.

GTDBIT

- | | |
|-------------|----------------------|
| E. GTDBIT12 | TWISTED WIRE SNAFFLE |
| F. GTDBIT13 | DR BRISTOL |
| G. GTDBIT30 | CHAIN |
| H. GTDBIT31 | CHAIN SNAFFLE |

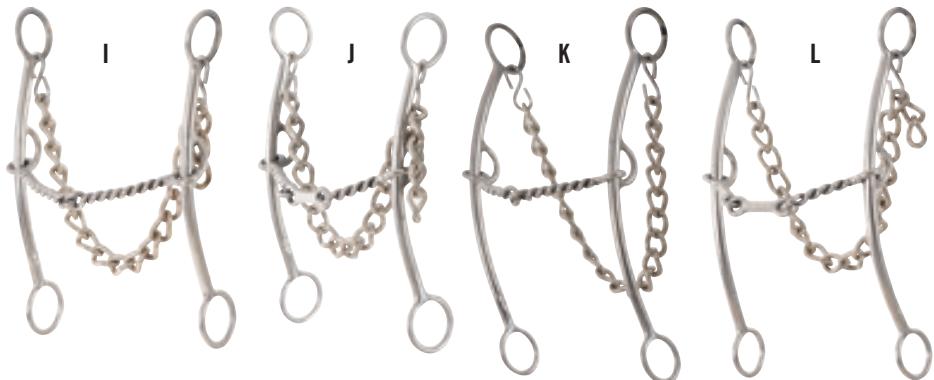

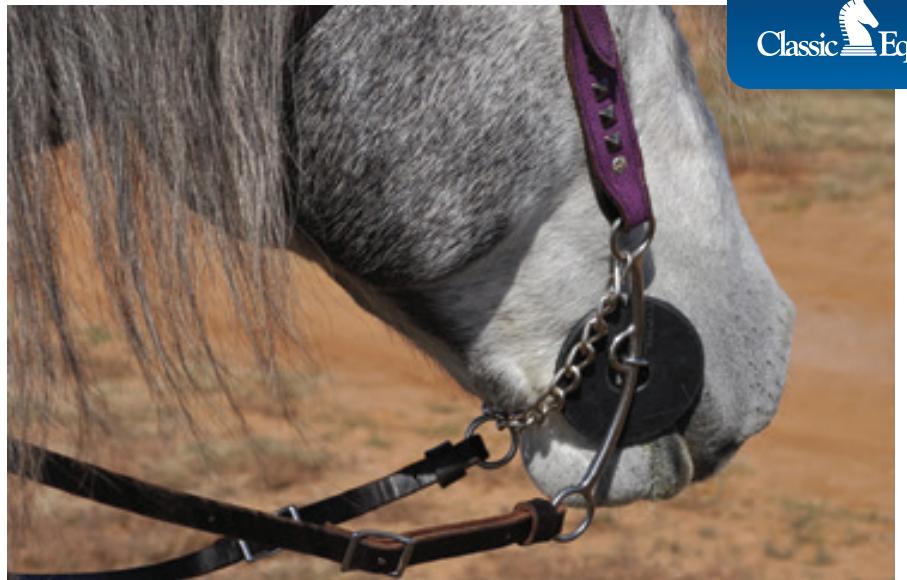

Pickup Bit

The Pickup Bit is available in both long (8-3/4") and short (7-1/4") shank versions and is Carol's next step up in control. Works well for obtaining shoulder control on seasoned horses that need help keeping their shoulder lifted going into the turns. Offers increased shoulder control and rate when needed. Horses that are harder mouthed usually respond well to the Pickup bit when lighter gag bits are not enough.

GTP

- | | |
|------------|----------------------------------|
| I. GTPSS12 | SHORT SHANK TWISTED WIRE SNAFFLE |
| J. GTPSS13 | SHORT SHANK DR BRISTOL |
| K. GTPLS12 | LONG SHANK TWISTED WIRE SNAFFLE |
| L. GTPLS13 | LONG SHANK DR BRISTOL |

Goostree Quick Draw

Versatility and adaptability make the Quick Draw an excellent addition to any collection. The twisted wire dogbone mouthpiece is a basic tool for many disciplines. Gag length is variable by adjusting the headstall length, from 0" - 3". Two rein rings allow for either 5-1/2" or 6-3/4" shank length. The Quick Draw is excellent for collection at speed and teaching vertical flexion at many different levels.

GTQD

- M.GTQD13 DR BRISTOL

Goostree Hackamore

The Goostree Hackamore is an extremely versatile piece of equipment. It is designed with a 8-3/4" shank and chain nosepiece covered in a supersoft polyurethane coating, making it very flexible. Because it is so flexible, riders don't hit that "dead spot" commonly felt in other hackamores. It offers plenty of "whoa" when needed and can be placed higher on a horse's nose or lower, depending on the horse's level of sensitivity.

GTHACK

- N.GTHACK

Loomis Gag Bits are used and endorsed by Dena Kirkpatrick

Loomis Bits

Joyce Loomis-Kernek, a former WPRA & AQHA Champion Barrel Racer and World Renowned Clinician, designed the original Loomis Gag Bit. Its one-of-a-kind design has been trusted by some of the most prominent horse trainers for years.

Loomis Gag Bit

Loomis Gag Bits have been trusted by professional horse trainers for many years to start colts or tune finished horses. They work great for transitioning from the ring snaffle, providing additional lift to control the horse's nose, poll, rib cage and shoulders. Excellent tool for teaching collection and lateral maneuvers. Durable cord cheek pieces on double stitched natural leather headstall with silver dots. Smooth Snaffle is stainless steel. Twisted Wire Snaffle has a sweet iron mouthpiece with stainless steel cheek. Ready to use - all you need are reins.

Bozo Sidepull

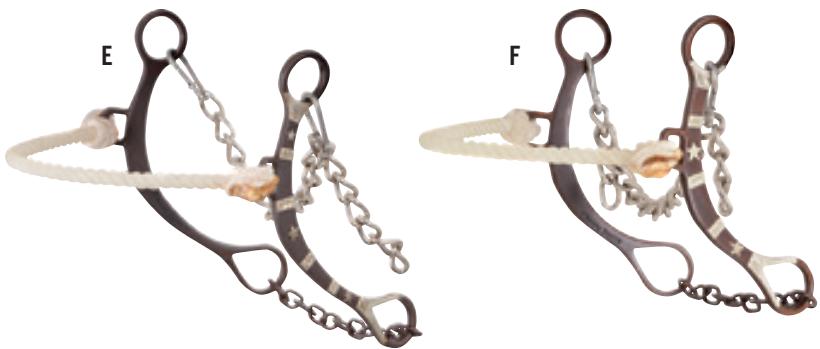

The Bozo Sidepull is a replica of the headgear World Champion Barrel Racer Kristie Peterson used on Bozo. It allows your horse to be comfortable enough to really run in, yet gives you enough control to rate and regulate the run. It helps correct a horse that is over-bending, and is more for the finished horse than for training.

TIP: Kristie recommends that you ride your horse in the Bozo Sidepull a few times before running in it.

BOZOSP

E. BOZOSP ORIGINAL (6-3/4" SHANK)

F. BOZOSPS SHORT SHANK (6" SHANK)

Shoulder Holder Bit

This is a great bit for elevating a horse's shoulder going into a turn. It aids the rider in holding a horse's shoulder steady, maintaining a more optimal body position around a barrel. Very fair and forgiving, the mouthpiece is set forward on the shank, which helps increase lift and lateral movement. This bit helps to maintain forward motion on horses that anticipate a turn. The Shoulder Holder is also a great tool for retraining man-made habits in aged horses. 7-1/4" shank.

SHBIT

G. SHBIT74 LOW PORT

H. SHBIT75 HIGH PORT

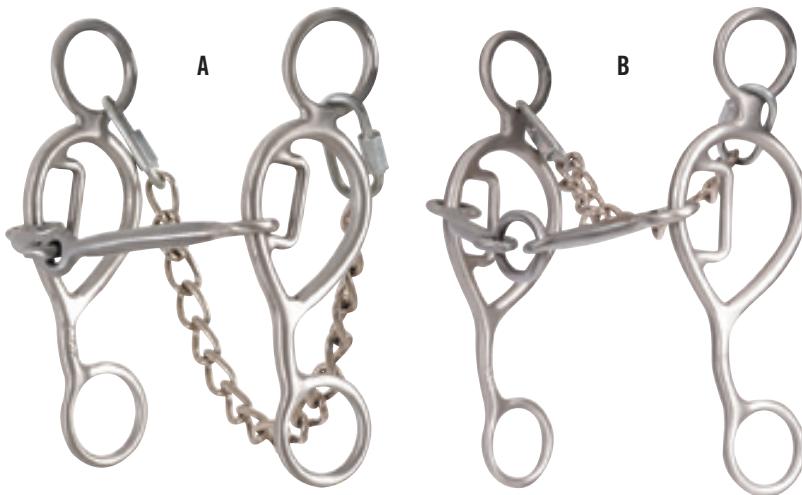

Les Vogt is a 15-time world champion horseman who has been honored in the NRCHA hall of fame three times. He is known as "The Trainer's Trainer," sharing his knowledge by giving clinics worldwide.

Turbo Collection

Satin-finished tempered steel shanks and pinchless sweet iron mouthpieces. Calculated shanks and the pre-signal gag design keeps horses responsive.

5-1/2" Shank Snaffle

Shank Level 1: 5-1/2"
Mouthpiece Level 1: Snaffle
Gag Length: 7/8"

Snaffle mouthpiece combined with easy leverage and limited gag encourages lateral flexion and suppleness. Great for fundamental training in younger horses.

A. LVBB7

6-1/2" Shank O Ring Snaffle

Shank Level 2: 6-1/2"
Mouthpiece Level 1: Ring toggle snaffle
Gag Length: 1-1/8"

Smooth ring toggle mouthpiece with medium leverage and gag encourages rate, lateral bend, and poll control. Provides lift for intermediate horses.

B. LVBB8

Turbo Collection

7-3/4" Shank Ported

Shank Level 2: 7-3/4"

Mouthpiece Level 2: Loose port snaffle, designed for pressure points on the outer mouth bar areas

Gag Length: 1-1/2"

The tool that creates smooth lateral neck and hip control without creating fear in intermediate and advanced horses. Limited gag slide action with higher leverage encourages rate, respect, and collection.

C. LVBB9

6-1/2" Shank Snaffle

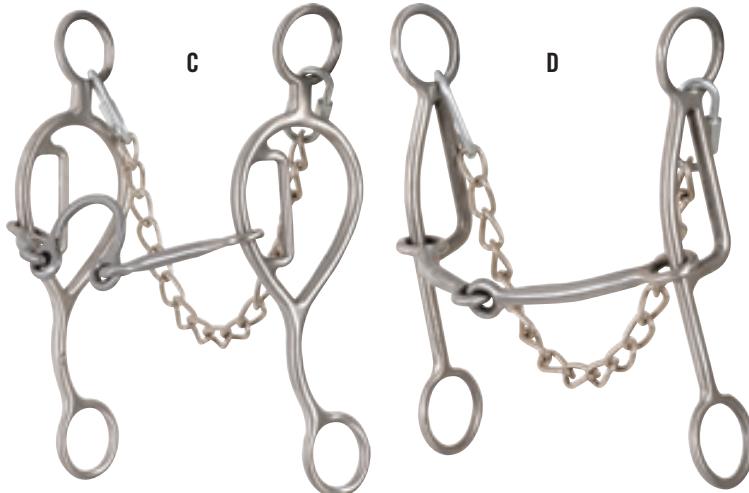

Shank Level 2: 6-1/2"

Mouthpiece Level 1: Snaffle

Gag Length: Unlimited

Lower leverage helps to make your horse more user friendly. Specially designed for soft-mouthed horses that need front end elevation. Great tool for collection education and maintenance.

D. LVBB10

7-1/2" Shank Dogbone Snaffle

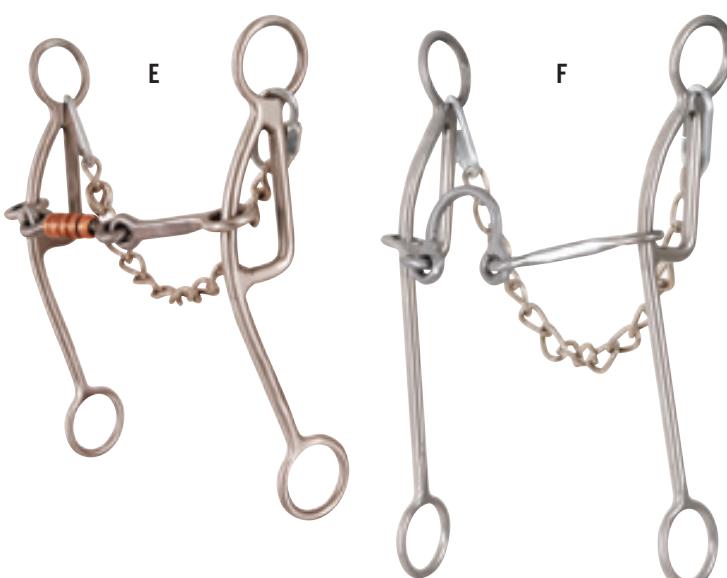

Shank Level 3: 7-1/2"

Mouthpiece Level 3: 1/4" Square with copper roller covered dogbone

Gag Length: Unlimited

This bit gives you respect without fear with the unlimited gag slide action with medium-high lift leverage. Allows speed control, rate and lateral body control.

E. LVBB11

8-1/2" Shank Ported

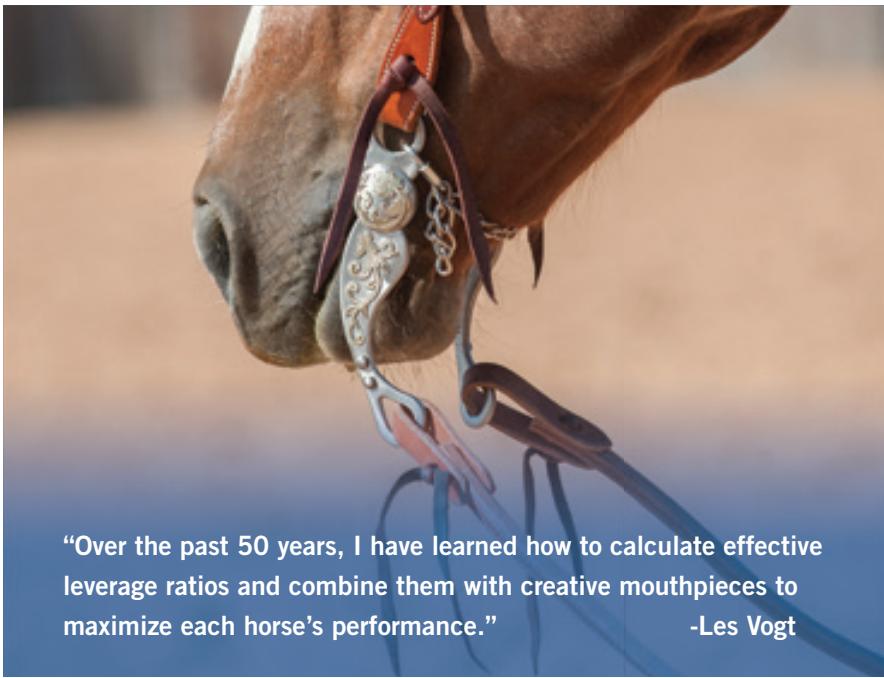

Shank Level 4: 8-3/4"

Mouthpiece Level 4: 1/4" square bars with loose open port center

Gag Length: Unlimited

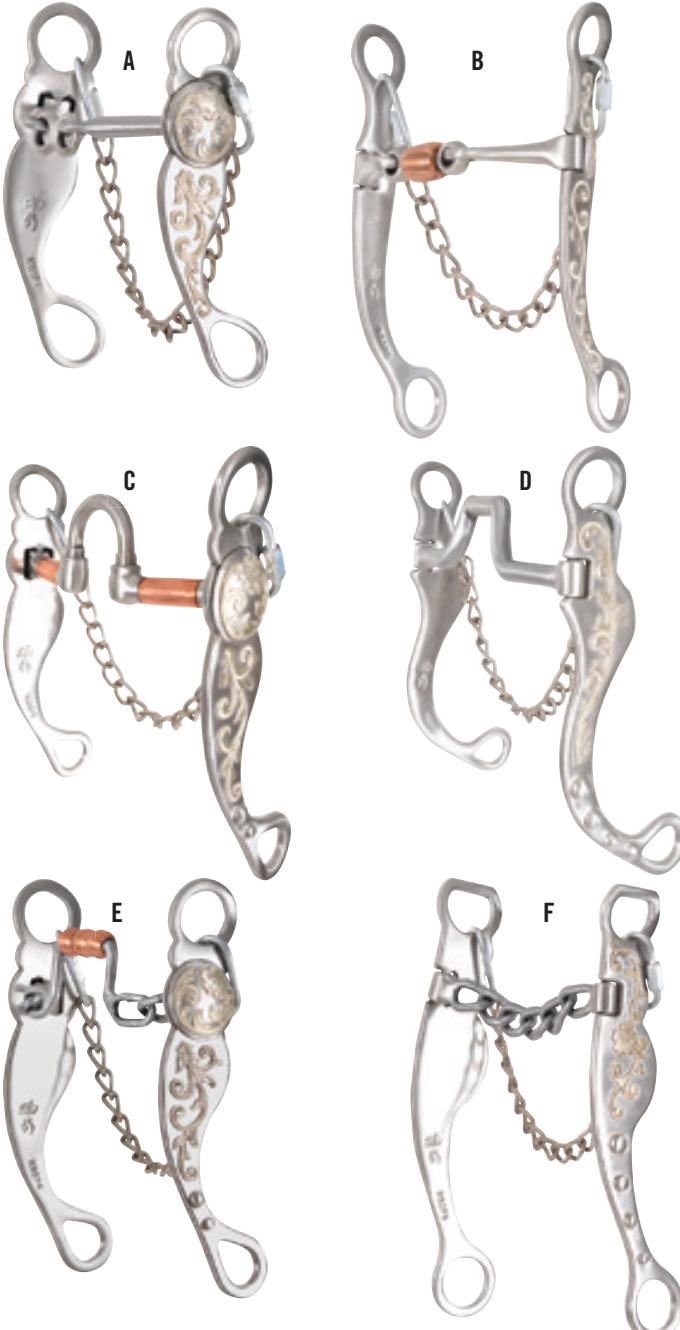

The unlimited gag slide action with high lift leverage encourages hindquarter engagement and weight distribution, with hip and shoulder control while competing to win at a high level on a broke horse.

F. LVBB12

"Over the past 50 years, I have learned how to calculate effective leverage ratios and combine them with creative mouthpieces to maximize each horse's performance."

-Les Vogt

Roper Collection

The Les Vogt **Roper Collection** is designed to increase performance in the arena, on the ranch, or on the trail with precision design combinations.

Dogbone Snaffle with Swivel Cheeks

Shank: 5-3/4"; Leverage Position: 1. Low leverage, easy mouthpiece is great for green or fragile horses.

A. LVRB1

3 Piece

Shank: 6-3/4"; Leverage Position: 1.5. Popular, versatile graduation bit with more leverage, feel, and respect on green horses.

B. LVRB8

Short Shank Correction with Swivel Cheeks

Shank: 6-3/4"; Leverage Position: 2. Allows for rate and communication. Shifts weight to the hindquarters and eliminates performance dead spots.

C. LVRB5

Swivel Port with Hinged Cheeks

Shank: 7-1/2"; Leverage Position: 2-1/2. Swivel port mouthpiece combined with high leverage allows lift and more control when shifting weight to the hindquarters. Flexible and slow reacting; good for strong, well-seasoned horses.

D. LVRB3

Square Port with Rollers

Shank: 6-3/4"; Leverage Position: 2-1/2. Contoured chain links find pressure points that achieve lateral flexion with rate and body control under speed.

E. LVRB6

Chain

Shank: 8"; Leverage Position: 3. Chain mouthpiece with high leverage. Flexible and slow reacting, good for stronger, well-seasoned horses.

F. LVRB2

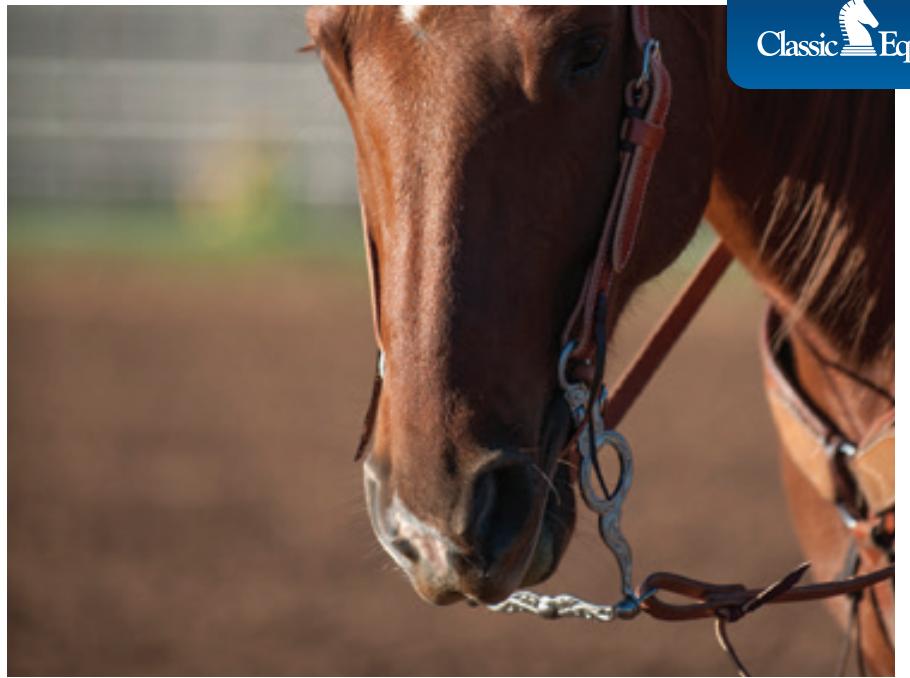

Cowhorse Collection

The Les Vogt Cowhorse Collection includes NRCHA approved bits with sweet iron mouth with copper inlay. Satin brushed iron shanks with beautiful hand engraved German silver overlay.

1-3/4" Slope Port

Shank: 8"; Leverage Position: 1. Higher leverage drops the neck and slows curb action. Slope port mouthpiece gives tongue clearance and contact with the exterior of the bars. Great for green horses.

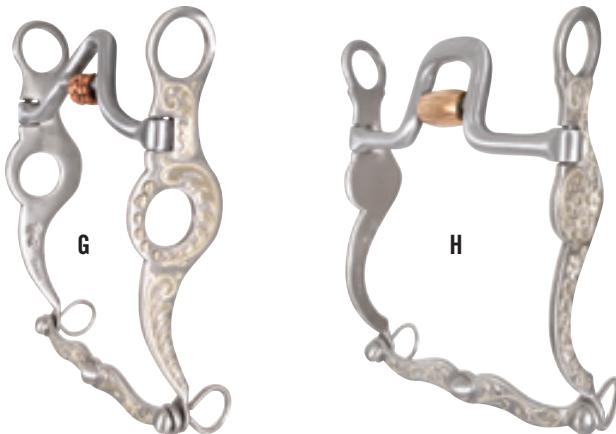

G. LVCH4

2" Flat Port Roller

Shank: 7-1/4"; Leverage Position: 2. Versatile mouthpiece with leverage. Communicates with respect, not too hot or too cold. Perfect for the nice horse that deserves to be bridled properly.

H. LVCH2

1-1/2" Port with Rollers

Shank: 8"; Leverage Position: 2. Higher leverage combined with a soft mouthpiece for more collection. Works well to eliminate high performance busy signals in and out of the arena and is a popular crossover bit.

I. LVCH6

2-1/2" San Joaquin Port with Tongue Relief

Shank: 8"; Leverage Position: 2-1/2. 4:1 leverage ratio drops the neck and delivers perfect head position for precision performance. Great all around bit for most horses.

J. LVCH5

2-3/4" Keyhole with Double Roller

Shank: 8"; Leverage Position: 3. Provides ample feel with palate and tongue pressure for respect. Easy to use and great for tougher horses.

K. LVCH3

Rickey Green lost his battle with a rare form of leukemia in 2018, and the entire team roping industry was deeply saddened by the loss of one its most influential leaders. Rickey had a passion for the sport of team roping that was both unsurpassed and contagious. His eternal goal was to make the sport better for all. Rickey truly loved people, and he lived to teach. He was an inspiring and gifted coach who was able to help and connect with everyone from the top pros to the most novice.

Rickey was an 11 Time NFR Qualifier and NFR Champion. He trained seven horses that were ridden at the National Finals Rodeo, including three PRCA World Championships, four NFR Championships, two BFI Championships, and the USTRC Open Championship.

RICKEY GREEN BITS

BY CLASSIC EQUINE®

The Rickey Green bit collection was designed for team ropers to train, practice and compete. It features a 7" loose-cheek shank and an assortment of mouthpieces for collection and lateral flexion, giving ropers the control and balance needed for proper horse position and consistent loop delivery.

Rickey recommended using a firm leather curb strap or flat chain with these bits to allow the horse to feel and work off the bit rather than react to the feel and pressure of a biting curb.

Long Shank Snaffle

Contoured shape makes the mouthpiece comfortable, and the 3" purchase provides leverage to lift the horse's head and shoulder, keeping the hindquarters collected.

A. RGBIT18

Chain

Pinchless mouthpiece shaped to lay flat across the mouth and tongue, attaches to the shank and softly cues when pressure is applied. Allows for collection, breaking at the poll and lifting of the shoulder in preparation to stop.

B. RGBIT30

Sharp Setter

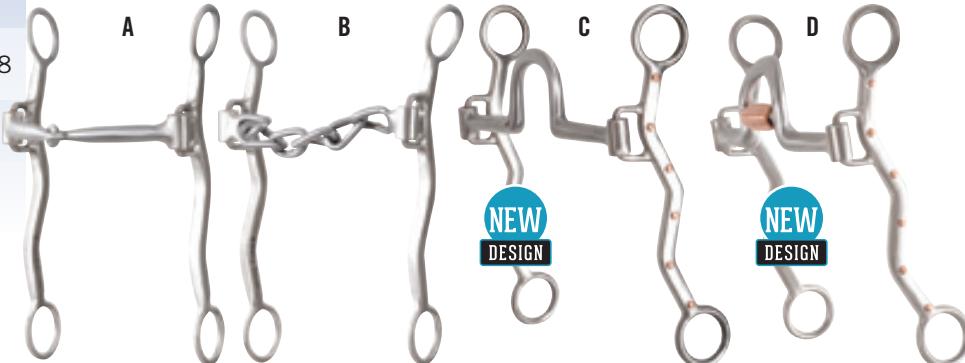

Encourages rate quickly under speed. Port reaches the top of the mouth and signals flexion at the poll, bringing the horse into your hand. Preferred on aggressive horses to maintain control.

C. RGBIT240

Setter with Roller

Unique mouthpiece rolls back when engaged, slowing contact and allowing time for collection and response to pressure. Develops the horse's proper headset and teaches him to carry the bit correctly. Under speed, helps rate smoothly and build consistency.

D. RGBIT241

Joe Beaver BITS BY CLASSIC EQUINE®

7-1/2" Shank Low Port

Allows the horse to push into the roper's hands. Length of the shank helps maximize the function of the jerk line. Its port style is shaped to be forgiving to a sensitive horse. Doesn't lock on and hold a horse's mouth, so it is a good bit for kids or novice ropers.

E. JBBIT2

7-1/2" Shank High Port

Offers more control on a horse that drops in the front and helps the roper keep his horse's weight shifted to the hind end. Offers more control on horses with a hard mouth. Increased "get back" action on horses that don't want to get back or yield to the jerk line on their own.

F. JBBIT1

8" Shank High Port

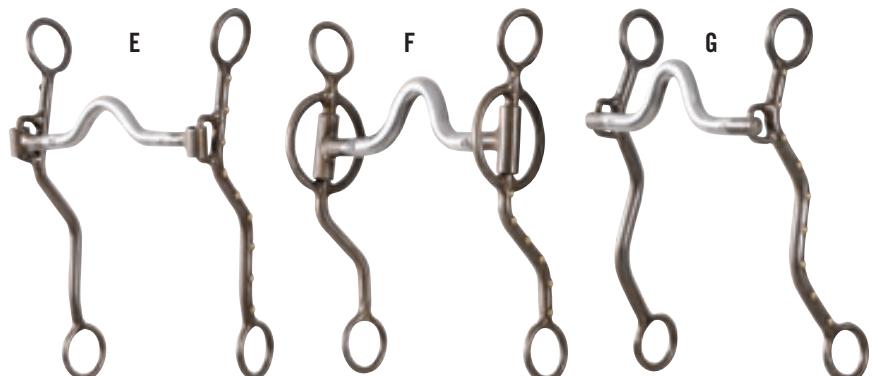

For the seasoned, veteran calf horse. Provides more control in the box and in the corner. 8" shanks provide maximum jerk line action. Works well for ropers with light hands or helps compensate for size and strength of the roper.

G. JBBIT3

Joe Beaver is an 8 Time World Champion Calf Roper with 22 NFR qualifications in Tie-Down Roping and Team Roping. Joe has dedicated much of his life to growing the sport, coaching the pros and teaching young ropers the fundamentals of Calf Roping. Joe conducts clinics, seminars and roping schools worldwide, in addition to horse training and public speaking appearances.

Classic Equine® is proud to offer his line of time tested Calf Roping bits. They are for everyone from novice and youth competitors to experienced professionals. His bits will help make up ground in horsemanship so the roper can focus on the calf. Ropers can depend on Joe Beaver bits for any style of calf horse, at varying stages of competition.

In developing BitLogic, we worked with dozens of the industry's top horse trainers. While all trainers have their own "secret" specialty bits, the basic styles of mouthpieces and cheeks used by most respected horsemen are surprisingly similar.

BitLogic is a complete bitting system. Included are essential bits that are common to most every professional horseman's line of equipment in all western disciplines.

Snaffle O Ring

O Ring Snaffles are the most commonly used pieces of equipment by trainers of all disciplines, for everything from starting colts to softening older performance horses. Use them to introduce a horse to a bit for the first time, teach a horse to follow his nose, lateral flexion exercises and drills, establish proper headset or soften older horses. These O Rings have a weighted feel for greater sensation during the pickup and release of pressure.

Smooth Snaffle

The softer of the two O Ring styles. 3/8" diameter, 5" wide and curved to shape the mouth. Inlaid copper promotes salivation and greater sensitivity to the bars.

A. TBBIT4OR20

Twisted Wire Snaffle

3/8" x 5" stainless steel twisted wire mouthpiece. Creates greater sensitivity in the mouth. Great for training and softening older horses' mouths.

B. TBBIT4OR25

Snaffle D Ring

The D Ring Snaffle has a nice weight, balance and feel. Its slightly heavier design not only makes it durable, but it takes a deliberate action to cue the horse. When released, the bit returns quickly to a resting state, providing release of pressure and adding consistency to your hands.

Smooth Snaffle

The softer of the two D ring styles. 5" wide and curved to shape the mouth. Inlaid copper promotes salivation and greater sensitivity to the bars.

C. TBBIT3DR20
D. TBBITDR20

Twisted Wire Snaffle

5" stainless steel twisted wire mouthpiece creates greater sensitivity in the mouth. Great for training and softening older horses' mouths.

E. TBBIT3DR25

Square Snaffle

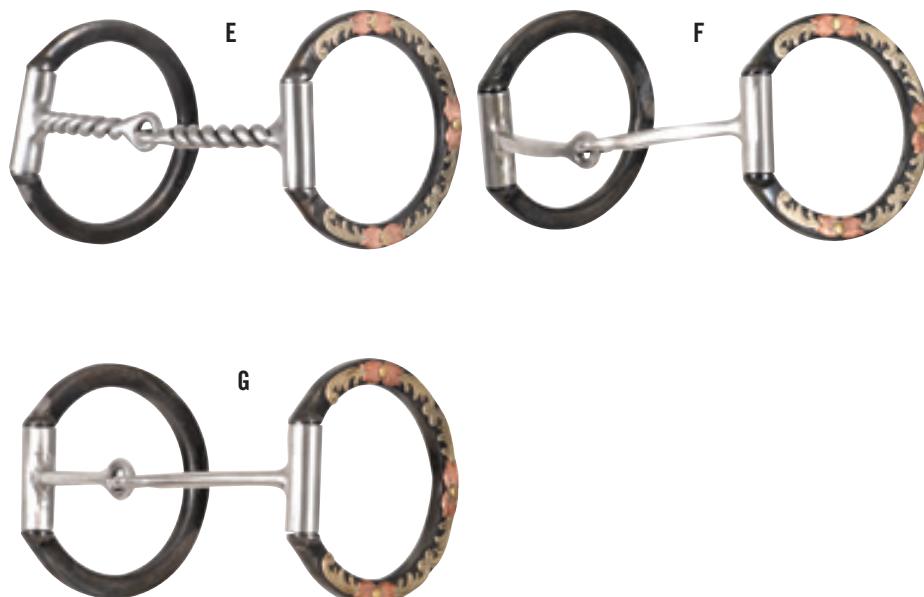

5" stainless steel square mouthpiece is designed for training, softening your horse's mouth, and building sensitivity.

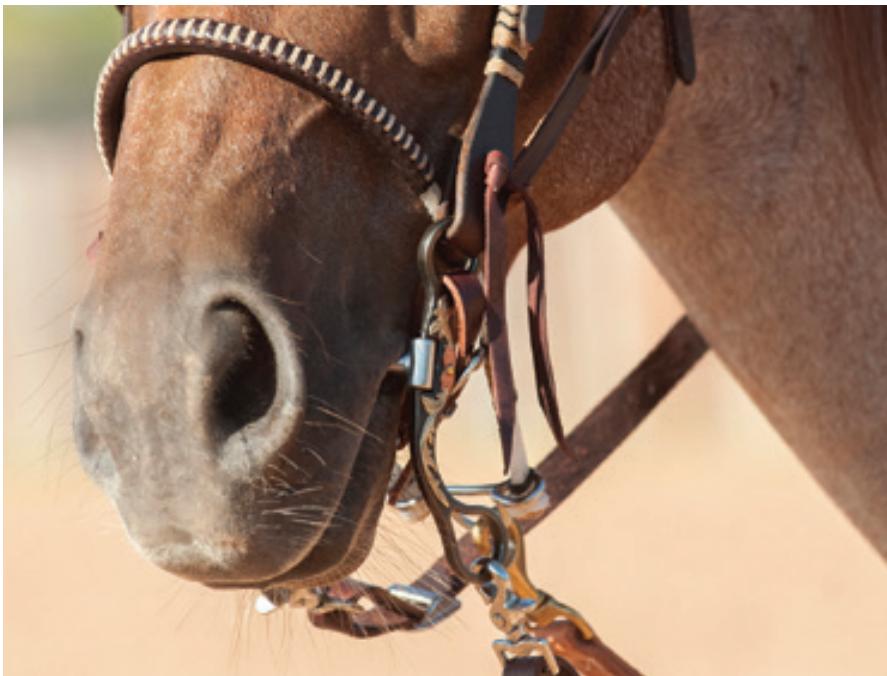

F. TBBIT3DR29

Small Smooth Snaffle

5" stainless steel small smooth mouthpiece is designed for training, softening your horse's mouth, and building sensitivity.

G. TBBIT3DR35

Ring Gag

Ring gag with an inlaid copper twisted wire snaffle mouthpiece. The gag action encourages the horse to respond before the bit is completely engaged. Gags are commonly used in training and competing in all western events.

5-1/2"

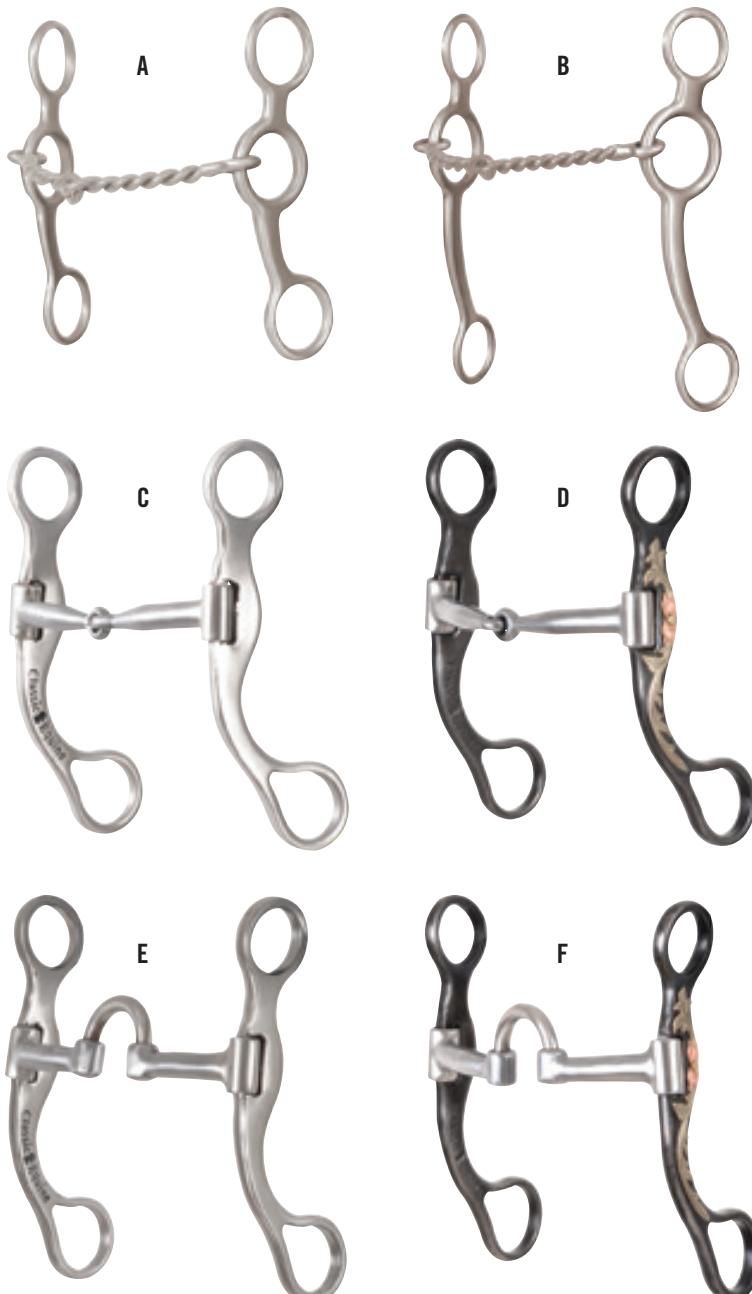

This gag action bit helps elevate the horse's shoulders.

A. SSPSBIT5RG25SS

6-1/2"

Good bit for reinforcing collection and shoulder elevation. Longer shanks give it more leverage for increased control.

B. SSPSBIT65RG25SS

6" Cheek

The 6" cheek has a 2-1/2" purchase and 3-1/2" shank. This ratio (difference in the length of the purchase and shank) and the swept back shank design make this a mild cheek. Contact with the horse's mouth comes slowly as soft pressure to all points of contact. The main point of contact is the corners of the mouth, familiar from the O Ring. This bit may also be used with a training fork or martingale to encourage collection and poll control. The mouthpiece is inlaid with copper to stimulate salivation. It is 5-1/8" wide, 3/8" in diameter, and curved for soft, evenly distributed pressure to the bars, tongue, and corners of the mouth.

Snaffle

Softest of all shank bit styles. Transition bit for colts moving up from the O Ring. Soft pressure is applied through the curb.

C. SSPSBIT6SS20

D. TBBIT36SS20

Short Correction

A slight step up from the snaffle. Applies pressure to the chin, bars and corners of the mouth. Gives added pressure to the tongue for more feel.

E. SSPSBIT6SS61

F. TBBIT36SS61

7-1/2" Cheek

This cheek style can be used for training, pleasure riding or competition. It has a 2-1/2" purchase with a 5" shank. The shank is swept back like the 6" style, but to a lesser degree, offering more leverage. When properly adjusted it is still a mild cheek, but has plenty of control at increased speeds.

Snaffle

This is one of the most popular bits with all horsemen. It applies more pressure to the tongue than the dogbone, giving it a quicker response. Offers lateral pull and collection.

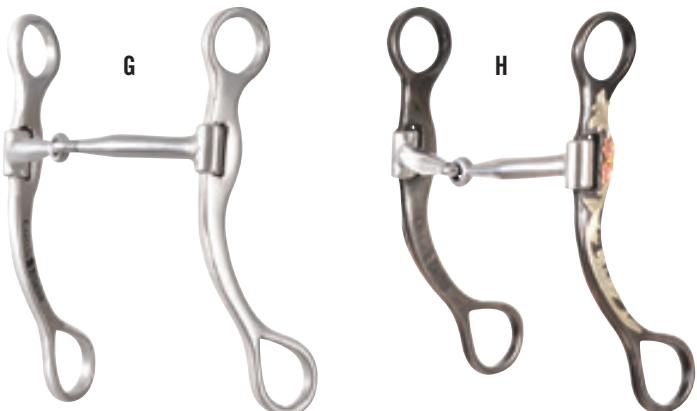

G. SSPSBIT7SS20
H. TBBIT37SS20

Chain

Stainless steel cheek with an inlaid copper chain mouthpiece. Good for reiterating bend and flex. Mild and pinchless sweet iron is comfortable, and applies even pressure to the corners of the mouth and tongue.

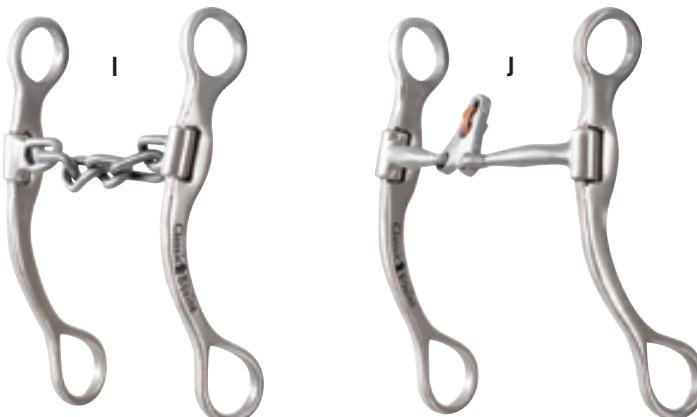

I. SSPSBIT7SS30

Floating Spade

Stainless steel cheek with copper inlaid floating spade mouthpiece that wraps over the tongue with pressure. This is a great bit to introduce a horse to palate pressure as you transition to ported bits.

J. SSPSBIT7SS24

Dogbone

This versatile mouthpiece wraps the tongue when pressure is applied. Pressure is also realized on the chin from the curb strap to the bars and corners of the mouth. This bit works well on well broke young horses or light-mouthed older horses.

K. SSPSBIT7SS29
L. TBBIT37SS29

7-1/2" Cheek

Ported Chain

Stainless steel cheek with a copper inlaid ported chain mouthpiece. This comfortable and pinchless mouthpiece allows for tongue relief while providing flex and bend. It also encourages the horse to break at the poll. Ideal for finished, well broke horses.

A. SSPSBIT7SS32

Low Port Barrel

This highly universal bit works well for anything from training to pleasure or competition. The low port provides tongue relief as slight pressure is applied to the bars of the mouth and the palate. Each side works independently from the port for increased lateral flexion.

B. TBBIT37SS60

Ported Twisted Wire

Advanced bit applies pressure to all parts of the mouth and sides of the tongue. Side pieces move independently with enhanced leverage and lift from twisted wire mouthpiece for desired stop and collection.

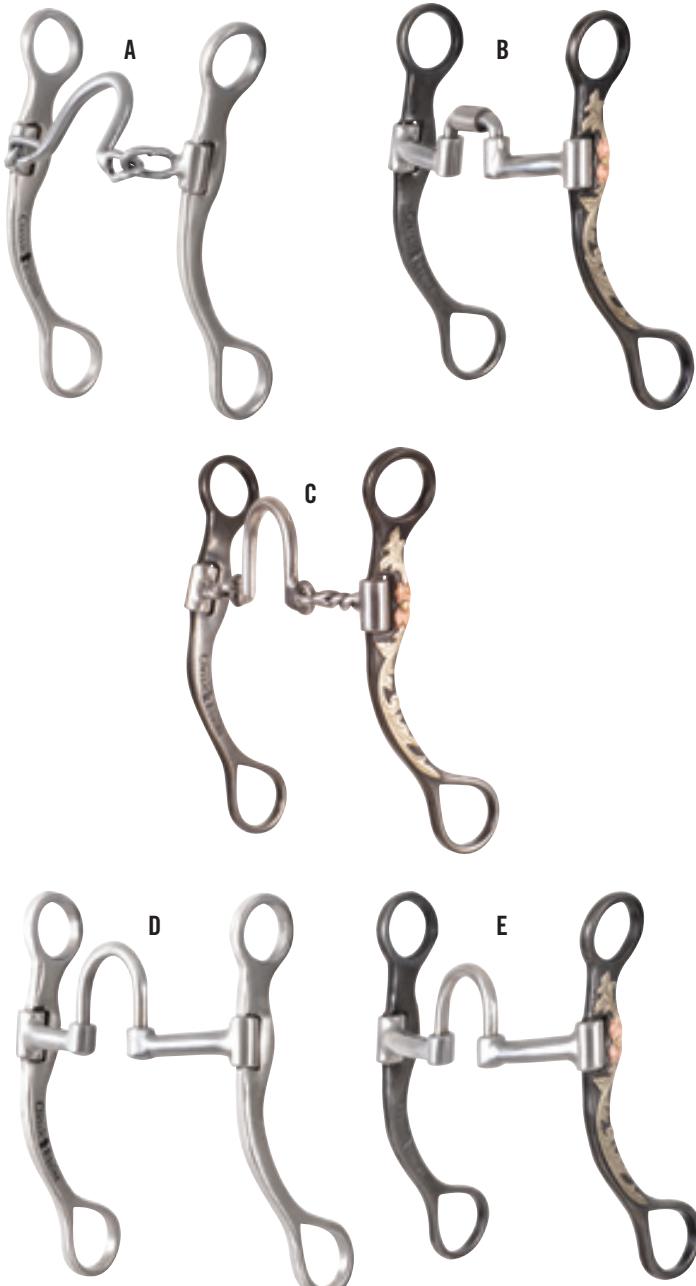

C.TBBIT37SS34

Correction

Extremely popular with performance riders and trainers. Taller port creates more palate pressure. Mouthpiece applies increased pressure to the sides of the tongue. Designed for finished, well broke horses of all disciplines.

D. SSPSBIT7SS10

E. TBBIT37SS10

8" Cavalry Cheek

Designed for more control in finished performance horses. The angled shank causes immediate response. The purchase/shank alignment ratio increases leverage, creating pressure to contact points. Use for competition and schooling, not daily training.

1" x 1-3/4" Correction

Applies increased pressure to all parts of the mouth and sides of the tongue. Used to school horses that need reminded of stopping and collection.

F. SSPSBIT8CS10
G. TBBIT38CS10

Square Hinge Port

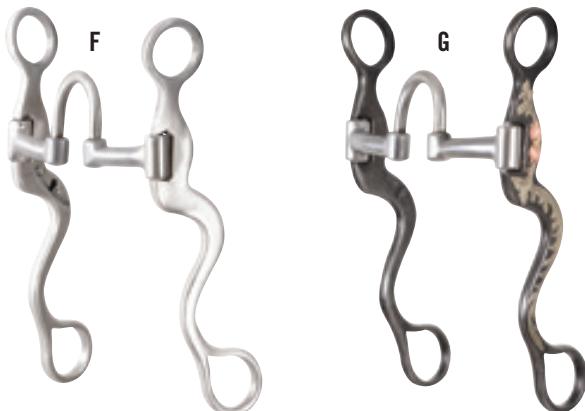

Sides of the mouthpiece move independently for lateral control and flexion for lifting the shoulder, achieving collection, and promoting a level headset.

H. TBBIT38CS70

Ported Twisted Wire

Advanced bit applies pressure to all parts of the mouth and sides of the tongue. Side pieces move independently with enhanced leverage and lift from twisted wire mouthpiece for desired stop and collection.

I. TBBIT38CS34

Ported

Inlaid copper mouthpiece with a higher port increases degree of contact with the palate, offering tongue relief with 1-1/2" width. For collection with a finished horse.

J. SSPSBIT8CS43

Hackamore

9" cheek with solid noseband and adjustable chain. Pinch free, designed for more control.

German Martingale

3/4" German Martingale is designed to teach the horse to give to bit pressure, flex at the poll, and maintain proper vertical and lateral body position. With four easy adjustment points, it accommodates all types of horses and training maneuvers.

Split Reins

GMART16SR

Roping Reins

GMART16RR

String Martingale

Lightweight martingale designed to teach flexion and facilitate consistent rein cues. Adjustable for any headset.

SMART

Loping Hackamore

Braided noseband with split yacht rope reins that provide good weight and feel in your hands. The Loping Hackamore is an excellent tool to soften the horse's feel in the warm up pen before bridling.

HACKLN

Jim Edwards Sidepull

A training tool every horseman should own. Great for colt starting or as a hackamore alternative. Used as a stepping stone for a young horse from the halter in preparation for an o-ring, with a similar feel to a halter. It offers a clear signal and is also excellent for softening a horse of any age who needs a break from the bit.

JESIDEPULL

Bonnet

Goes over the brow and the nose, with a ring to attach the tie down strap. Made of adjustable flat braid rope and high quality leather.

BONNETM

Colt Rein

Rein your colt without the excess bulk of a long rein. Yacht rope has 3/4" diameter and shorter length for colts. Harness leather slobber straps.

LRN

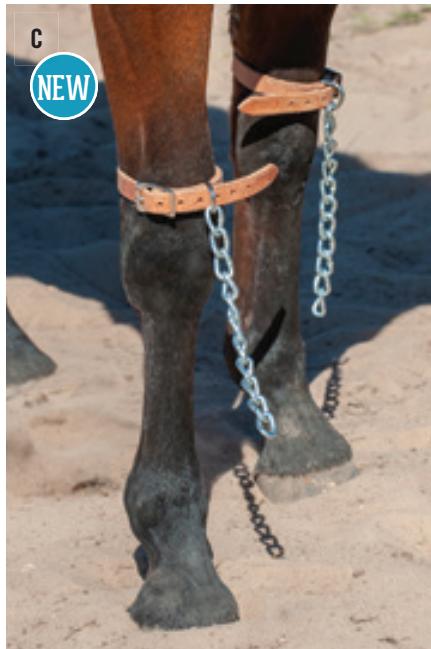

Colt Pad

Developed for advanced horsemen and professional trainers when starting colts, the Colt Pad is a safe alternative to using your regular saddle when tying around young horses. Strategically placed D-rings offer multiple tying positions. High quality felt lining is covered with harness leather for durability. Latigos and back cinch included. Front cinch sold separately.

A. COLTPAD

Kick Chain

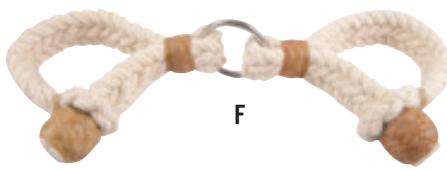

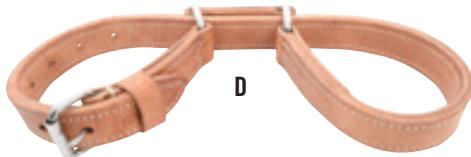

Use to prevent a horse from kicking the stall. Closure has an easy on/off application and design includes a heavyweight one-size-fits-all dog chain.

B. KICKCHAIN

Pawing Chains

Discourage pawing while a horse is trailered or tied. Small chains hang from a leather strap that buckles above the horse's knee. One size fits most. Hermann Oak harness leather.

Phil Haugen Training

Over 30 years, Phil Haugen has developed a method of horsemanship on the foundation of common sense, trust and understanding. A respected trainer and clinician, Phil has developed these tools to help accomplish the training goals of all disciplines.

Martingale

Classic German Martingale with tightly braided rope applies pressure to the bars and corners of the mouth, and provides instant release as the horse gives. This tool is useful to maintain that "softness" in the bridle with added speed and pressure during the transition to higher level training in its desired discipline. Available with split rein or roping reins.

Split Rein

I. PHMARTINGALESR

Roping Rein

PHMARTINGALERR

Flexion Rig

Useful in developing vertical and lateral flexion in the horse, as well as introducing colts to girth pressure. The Flexion Rig reinforces softness in horses at any level, encouraging them to move forward behind the bridle for immediate pressure release. Phil has used this tool with great success on numerous horses. Cinch included.

J. PHFLEXRIG

1/2" Braided Rein

Quick pickup and release helps the horse to understand your cues and improves reaction to your hands. The low stretch between the hands and bit keeps the horse from leaning on the bridle and provides immediate release for softness. Use with slobber straps to facilitate a softer feel.

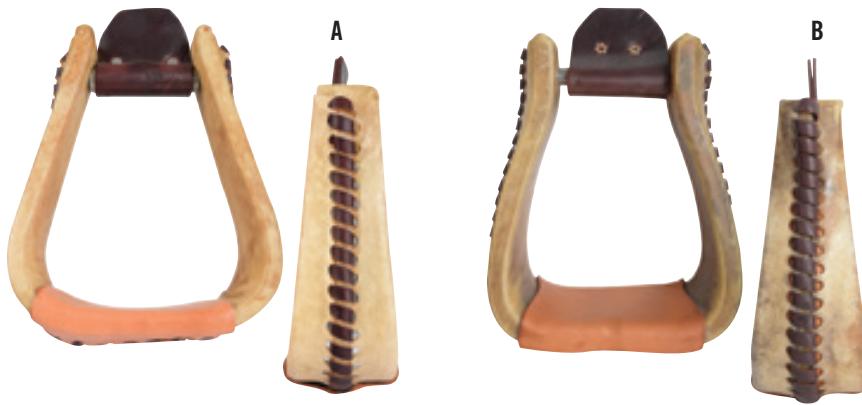

K. PHREIN

Bungee Tiedown

The Bungee Tiedown makes introducing poll pressure easier in sensitive horses. Headset is encouraged with easy reinforcement without being too harsh. This helps the horse feel more comfortable and willing in his training.

Crusader Fly Protection

Crusader™ Fly Mask

The standard for comfort. Soft coated nylon micromesh makes the Crusader Fly Mask durable, soft and comfortable. The patented three hole cap and double dart construction hold material well away from sensitive eyes, lashes and temples without damaging the forelock. This provides a more natural and complete field of vision. The Crusader also blocks up to 70% of the sun's damaging UV rays, protecting horses from eye problems and sunburn.

Sizes: Mini/Foal, Weanling/Small Pony, Yearling/Large Pony, Arab/Small Horse, Horse, Warmblood, Draft

Standard

The classic fit. Protects eyes, cheeks and forehead from flies and sun without impeding vision.

A. CFMS

Standard with Ears

All the benefits of the Standard mask, with soft micromesh nylon sleeves to protect the ears.

B. CFMSE STANDARD EARS

C. CFMMSE MULE EARS

Long Nose

Extra material on the nose provides added insect protection and shields the sensitive nose from UV rays, a benefit for any horse.

D. CFML

Long Nose with Ears

All the benefits of the Long Nose, with soft micromesh nylon sleeves to protect the ears.

E. CFMLE STANDARD EARS

F. CFMMLE MULE EARS

Patterned Crusader

Get all the comfort and protection of our Standard Crusader Fly Mask, but with style. Choose different patterns to match each horse's personality, or choose a single design to easily tell yours apart.

Sizes: Mini/Foal, Weanling/Small Pony, Yearling/Large Pony, Arab/Small Horse, Horse, Warmblood

All patterns available while supplies last

Standard

ANIMAL RESCUE

Orange Crusader

The wellbeing of our equine friends has always been our first concern, so we donate 5% of proceeds from our orange fly masks to rescue efforts nationwide. We always have. Every horse deserves the very best, and we know you agree. Join us in the crusade against animal cruelty and feel confident that together we can make a difference. Orange.

Sizes: Arab/Small Horse, Horse, Warmblood

Standard

The classic fit. Protects eyes, cheeks and forehead from flies and sun without impeding vision.

Lightweight Fly Sheet

Breathable mesh can be used even on warmer days when insects are active. Unique design has a contoured shoulder and wide belly flap for added comfort and protection of sensitive areas, while keeping the sheet securely in place. Grey.

Sizes: 57-59, 66-68, 70-72, 74-76, 77-79, 80-82, 83-85, 94-96

FSL

Fly Sheet Neck Guard

Soft and breathable, this cool, easy care micromesh neck guard attaches easily to the Crusader Fly Mask and Fly Sheet. The Neck Guard also keeps your horse's mane straight, saving you grooming time and getting you back in the saddle faster. Machine washable. Grey.

Sizes: 66-72, 74-80, 82-84

FS-NG

Econo Fly Sheet

Great protection for all. Supersoft easy care polyester mesh blocks UV rays, offering cool protection from sun and insects. Fleece lining at the withers and adjustable straps make it comfortable enough for continuous wear, yet economical enough for the entire stable.

Sizes: 74-76, 77-79, 80-82

FSE

Econo Fly Sheet with Neck Guard

Supersoft easy care polyester mesh blocks UV rays, offering protection from sun and insects. Shoulder darts, lining around the front of the shoulder and front gussets provide a comfortable fit and add freedom of movement. An attached neck guard with adjustable hook-and-loop straps has a tie string that attaches to the fly mask. Adjustable rear closure and removable leg straps keep the sheet in place. Grey.

Sizes: 74-76, 77-79, 80-82

FSENG

Fly Sheet Belly Guard

Added protection from chest to flank, the Fly Sheet Belly Guard gives relief from flies where your horse needs it most. Soft straps are comfortable, adjustable and secure. Use with the Crusader Fly Sheet in the pasture or stable. Black.

Sizes: 66-72, 74-80, 82-84

FS-BG

Fly Mask Nose Net

The Nose Net protects your horse's muzzle out in the pasture. Attaches to the halter. Durable mesh blocks 70% of the sun's harmful UV rays. Grey.

Sizes: Small, Medium, Large

FM-NN

Hook-And-Loop Extender

Add up to 5" to your fly mask. Attach the Extender to each side of the existing strap for greater sizing flexibility and fit. Grey.

VSE

Rubber Braiding Bands

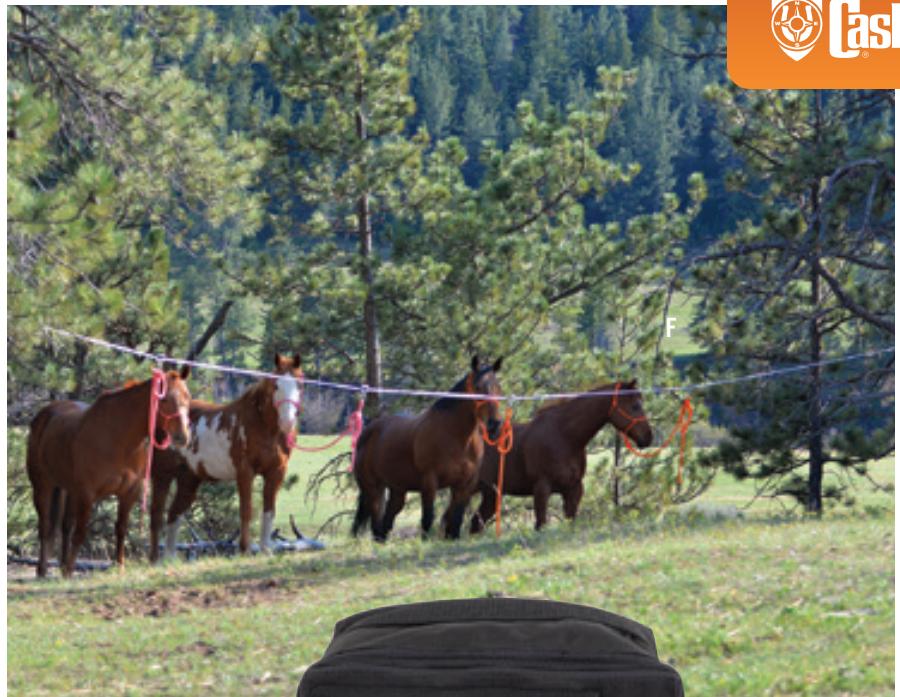

These rubber bands are tangle resistant, super soft and crack resistant. The convenient storage tub contains 800 bands, so running out is rarely a problem. These are easy to carry and easy to store for all your horse's mane and tail braiding needs.

RBANDS

High Line Kit

The High Line Kit allows you to tie up to four horses using the traditional high line method. The kit comes complete with everything you need in a convenient, durable tote bag. Four high line swivels are easy to attach, remove, and hold secure. Two Tree Saver straps are adjustable to accommodate varying tree widths. Also included is 100 ft. of strong 3/8" nylon rope.

A. TA-HLK

Tree Saver Straps

Tree Saver Straps reduce damage by preventing the rope from cutting into the tree. They are made of 1-1/2" heavy webbing with nickel hardware. Length: 5'-6". Set of two.

B. TA-HLTS

High Line Swivel

Easily and quickly set up tying spots along your high line. The High Line Swivel extends the life of your high line rope, and cuts down on tangled ropes and confusion on spacing. Plus, the swivel ring helps prevent horses from getting tangled. This swivel stays in place and secure on a tight line.

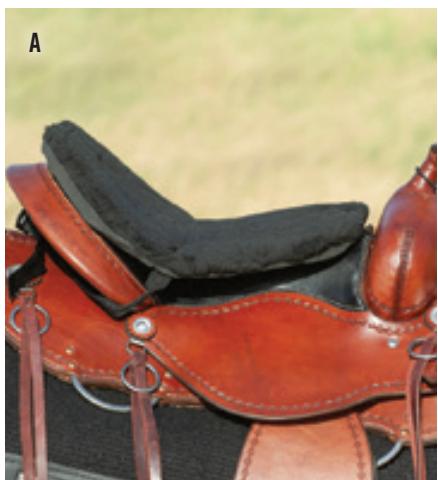

C. TA-HLS

High Line Rope

100 ft. of strong 3/8" nylon rope.

D. TA-HLR

Tush Cushions®

Cashel® Tush Cushions® make hours in the saddle more comfortable, without interfering with balance or seat position. Made with the same closed cell foam as our popular Cushion saddle pads, they will not collapse or retain heat over time. Adjustable nylon straps hold the cushion firmly in place. All Western Tush Cushions® can also be used on no horn saddles.

Western Large Fleece

1/2" Cashel® foam with fleece lining. Wider and longer to support you where the saddle doesn't, this is the ultimate cushion in the line. It is specifically designed with double thick Cashel® foam along the outside edge to help eliminate painful pressure points and provide an incredibly comfortable ride.

QR-BUG-NET

Cashel® Saddles

Cashel® saddles are made with your security and comfort in mind. We offer versatility in styles great for training, colt starting, pleasure riding, competition, mounted shooting and ranch work.

Cashel® saddles are built on the Axis True Fit tree, with a unique fiberglass seat and the finest kiln-dried South Dakota white pine. The bars distribute weight evenly and allow a full range of motion. Double stirrup leather cutouts and a smooth surface with flared edges create a smooth, balanced ride.

Drover

The Drover is durable and heavy enough for ranching and day work, but comfortable enough for long rides on hunts and trails. It has an association swell with a mule hide wrapped dally horn, and is made of high quality Hermann Oak leather with a full padded seat. Tie rings are woven into each string set with an additional crupper ring. 4" wide Monel stirrups are standard. The AXIS™ tree provides full, even contact to best fit your horse. Made with 100% all natural sheep wool and soft leather latigos. Chocolate roughout leather. Made in the USA.

Tree Sizes: 14", 15", 16", 17"

Gullet Sizes: Standard (6-1/2"), Wide (7")

**Ask your Customer Service Rep about custom options
SA-CD**

Cashel® Trail Saddle

The Cashel® Trail has horse and rider's comfort and security in mind. Stirrup fenders are positioned to give the rider a comfortable leg angle for stability. A double padded seat makes a softer ride for long trail rides, and the redesigned larger swells and cantle offer more security. Tie rings are woven into each string set, along with an additional crupper ring. The saddle is 7/8 rigged, and with the AXIS™ tree provides full, even contact to your horse. Weight: 24-1/2 lbs. Chocolate Hermann Oak leather. Made in the USA.

SA-CT-R ROUGHOUT

Trail Blazer Saddle

The Trail Blazer is built on the AXIS™ tree with Hermann Oak leather for a good fit and durability. It is 7/8 rigged, with plenty of strings and rings and an additional crupper ring for versatility. The Trail Blazer is great for exercising, endurance, colt starting, reining and western pleasure. Its double padded seat and secure pocket, along with the large swells and cantle, provide balance and comfort for a long day in the saddle with less fatigue. If you're looking for a cost effective saddle to cover a variety of disciplines, the Trail Blazer will go the distance. Weight: 27-1/2 lbs. Chocolate Hermann Oak leather. Made in the USA.

Tree Sizes: 15", 16", 17"

Gullet Size: Standard (6-1/2")

Soft Saddle G2

The Soft Saddle G2, with its quality construction and innovative design, is great for the trail and for everyday exercising. It provides a balanced ride that is comfortable for horse and rider. Features include a wither handle strap, convenient back dee rings, and removable stirrups. The compact design is flexible yet secure. Weighs just six lbs. for effortless saddling.

Sizes: Medium, Large, X-Large

SSG2

Soft Saddle Pad

The perfect companion to the Soft Saddle G2, designed to fit perfectly without extra bulk. Canvas top and fleece bottom for durability and comfort. One size.

SS-PAD

Soft Saddle Liner

Designed for use under the Soft Saddle G2 to help absorb moisture and keep the fleece clean and dry. The split-back opening contours to your horse's back and enables airflow. Black.

Sizes: Medium, Large

FL-G2

Soft Saddle Breastcollar

Specifically made for the Soft Saddle G2, with nylon and 100% sheep wool construction. Designed to attach to the dee rings of the saddle similar to an endurance breastcollar. Wither strap included. Nickel plated hardware.

SSG2-BC

Cowboy Kid Saddles

For the serious competitor, Cashel® is proud to offer a serious youth saddle designed with the young rider in mind. All Cowboy Kid saddles are built to use, with trees and rigging that stand up to ranch work. A secure seat pocket, roughout leather, and kid friendly proportions help the young rider maintain correct position and balance. Available in four styles, you are sure to find a saddle that is the perfect fit for your cowboy kid.

These saddles can fit a wide range of riders by adjusting stirrups and adding a seat shrinker. They are tailored to those who wear girls' or boys' western jeans from size 4 to 14.

Barrel Racer

Narrow ground seat helps the rider balance for tight turns, with a tall, narrow horn for security and leverage. Prominent swells keep the rider in position as the horse drops, and the higher cantle helps keep the rider from falling behind as the horse accelerates.

Seat Sizes: 12", 13"
Gullet Size: 5"

SA-CKBR

Roper

Tailored to help young ropers as they learn the basics, with a horn that is easy to reach and a seat designed to keep them in position. Blocked fenders help keep balance while delivering the loop.

Seat Sizes: 12", 13"

Gullet Size: 5-1/2"

SA-CKRO

Rancher

The Rancher's lower, flatter seat is designed for all day comfort. Larger swells and free swinging fenders keep the rider in a secure position on any horse, over any terrain. Just like the kids who ride them, this saddle is tough enough for ranch work.

Seat Sizes: 10", 12", 13"

Gullet Size: 5"

SA-CKRA

Wade

The Wade saddle offers closer contact to the horse with a traditional cowboy design. Its slightly larger horn cap secures the rope, and the high cantle keeps the rider in position.

Seat Sizes: 12", 13"

Gullet Size: 5-1/2"

SA-CKWA

FeatherFlex™ Dressage Girth

Extra soft virgin neoprene eliminates girth itch and galling under harsh conditions. The FeatherFlex is self lubricating, antimicrobial and antifungal with stainless steel hardware that will not rust. The magni-hide cover is impervious to spurs and provides extra protection from shoe studs through the jump. Black.

Sizes: 20", 22", 24", 26", 28", 30", 32"

CIN-DS

FeatherFlex™ Jump Girth

Extra soft virgin neoprene eliminates girth itch and galling under harsh conditions. The FeatherFlex is self lubricating, antimicrobial and antifungal with stainless steel hardware that will not rust. The magni-hide cover is impervious to spurs and provides extra protection from shoe studs through the jump. Brown.

Sizes: 44", 46", 48", 50", 52", 54", 56", 58"

CIN-JP

Mohair Straight Cinch

Made of a 60/40 blend of mohair and rayon that is naturally soft and moves and expands with your horse's natural movement. The Mohair Straight Cinch has stainless steel hardware that will not rust, is durable and is easy to cinch.

Sizes: 28", 30", 32", 34", 36"

CIN-MS

Ring Master

Keep your cinch ring from pinching or chafing your horse. It is easy to put on and ensures your horse's comfort under the saddle. The Neoprene Ring Master does not absorb sweat and easily rinses clean with water. The Fleece Ring Master is made of 100% sheepskin and attaches with leather ties.

Rifle Scabbard

A secure place for the outfitter or hunter to protect your firearms. Attaches conveniently and quickly to the saddle and provides a padded shield. Black.

SCBR

Lopper / Saw Scabbard

There's no trail you can't navigate with the Lopper/Saw Scabbard. The best way to pack your pruners and a saw, it is built to last and secures to the pommel and front girth. Saw and pruners not included.

SCBPS

Rump Warmer

Designed specifically for the endurance rider, the Rump Warmer prevents your horse from cooling off too quickly after long trips. Important back muscles and organs stay warm and protected with the soft polar fleece lining and waterproof top. Attaches to your saddle with tie-on strings. Black.

RW-H

Western Saddle Cover

Made to protect and weather the elements, the Saddle Cover is water resistant and made for western saddles. Made of durable nylon with extra space for the horn and elastic straps on each corner to provide a secure fit.

SA-SCVR

English Dust Cover

Store your english or dressage saddle safe and protected from the dust particles in the air. The Dust Cover can significantly cut down on cleaning and polishing of your english saddle. Use it every day in the barn or while commuting to an event, keeping your saddle clean, protected and dust free. Black.

Size: 28" l x 57" w

DC-BLA-ENG

Stirrup Slipper

Pocketed slipper keeps your stirrups from scratching your saddle while longeing, hauling or storing. Made of soft quilted poly cotton twill, it lays across the saddle with the weight of the stirrups keeping it in place. Black.

Size: 35" l x 8" w

STS

Saddle Shield

Waterproof cover for riding made to fit all english saddles, including Dressage saddles. Ride when rain chances are questionable without damaging your saddle. Black.

Sizes: 32" x 34", 34" x 36"

SWYW-32 32" X 34"

SWYW-34 34" X 36"

Cushion Pads

Engineered to provide outstanding back protection and shock absorbency, Cashel® Cushion pads are made with a unique closed cell foam originally designed for the aerospace industry for weight distribution and shock reduction. They will not collapse or absorb moisture and bacteria the way open cell foam pads do, nor will they retain heat or add unnecessary weight the way liquid gel pads

do. Extremely lightweight and conforming to your horse's back, Cashel® Cushions will help relieve pressure points and are tapered at the edge to eliminate uncomfortable ridges, allowing closer contact with your horse. They go label side up with your saddle directly on top. Recommended for use over a navajo, felt liner, or quilted pad. Clean with water and store on a smooth surface.

Correction Cushion Pads

Made with the same unique foam as the original Cushion pads, Correction Cushion Pads are specially designed to aid in providing optimal comfort and protection as well as to help adjust the fit of your saddle against the horse. They provide an easy way to help horses with muscle atrophy behind the shoulder or other conformational obstacles through the balanced distribution of saddle pressure.

Wedge Correction

Gradually increasing in thickness from front to back, the Wedge Pad provides increased protection over the sensitive back area or can be used to level your saddle.
